University Handbook

2019-2020

Rocky Mountain University of Health Professions is accredited by the Northwest Commission on Colleges and Universities (NWCCU; 8060 165th Avenue NE Ste 100, Redmond, WA 98052-3981), an institutional accrediting body recognized by the Secretary of the U. S. Department of Education.

The entry-level Doctor of Physical Therapy (DPT) program is accredited by the Commission on Accreditation in Physical Therapy Education (1111 North Fairfax Street, Alexandria, VA, 22314; phone: 703-706-3245; email: accreditation@apta.org).

The Doctor of Nursing Practice program and post-graduate APRN certificate program at Rocky Mountain University of Health Professions is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

The Accreditation Review Committee on Education for the Physician Assistant (ARC-PA) has granted Accreditation-Continued status to the Rocky Mountain University of Health Professions Physician Assistant Program sponsored by Rocky Mountain University of Health Professions. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards. Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2029. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy. Address: 12000 Findley Road, Suite 150, Johns Creek, GA, 30097, email: arc-pa@arc-pa.org. Website: http://www.arc-pa.org/.

The Master of Science in Speech-Language Pathology program at Rocky Mountain University of Health Professions is a Candidate for Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (2200 Research Boulevard #310, Rockville, MD 20850, 800-498-4776). Candidacy is "pre-accreditation" status with the CAA, awarded to developing or emerging programs for a maximum period of five years. Award of candidacy allows the program to matriculate students into the program as it continues to document compliance with accreditation standards for the duration of the candidacy accreditation cycle.

RMUoHP reserves the right to change, without notice, any statement in this publication concerning, but not limited to, rules, policies, tuition, fees, faculty, curricula, and courses. This document is not a contract or an offer of a contract.

Mission, Vision, Core Themes and Values

Mission Statement
The mission of Rocky Mountain University of Health Professions is to educate current and future healthcare professionals for outcomes-oriented, evidence-based practice. The University demonstrates mission fulfillment through the quality of its education and success of its students in academic programs that develop leaders skilled in clinical inquiry and prepared to effect healthcare change.

Vision Statement
The vision of Rocky Mountain University of Health Professions is to advance the quality, delivery and efficacy of healthcare.

Core Themes
1. Developing Evidence-Based Practitioners
2. Elevating Clinical Inquiry Proficiency
3. Ensuring Educational Quality
4. Nurturing Student Success

Core Values
- **Clinical Inquiry** - The University advocates clinical inquiry that challenges practice standards, expands evidence-based practice, increases clinical research, develops healthcare change agents, and encourages experiential learning.
- **Student-Centeredness** - The University provides a student-centered environment through relevant and participatory courses and a supportive University community.
- **Integrity** - The University demonstrates integrity in its interactions with all its constituents.
- **Diversity** - The University cultivates diversity through academic freedom, varied educational experiences, and broad recruitment of students and faculty.
- **Leadership** - The University fosters skills essential to leadership roles in healthcare, academia, research, and the community.
- **Sustainability** - The University operates with respect for the natural environment.
- **Viability** - The University generates and manages its resources in a manner that will ensure the long-term success and operation of the institution.
- **Service** - The University promotes service to community, healthcare, and education.
University Registration and Accreditation

RMUoHP is accredited by the Northwest Commission on Colleges and Universities (NWCCU; 8060 165th Avenue NE Ste 100, Redmond, WA 98052-3981), an institutional accrediting body recognized by the Secretary of the U. S. Department of Education.

The entry-level Doctor of Physical Therapy (DPT) program is accredited by the Commission on Accreditation in Physical Therapy Education (1111 North Fairfax Street, Alexandria, VA, 22314; phone: 703-706-3245; email: accreditation@apta.org).

The Doctor of Nursing Practice program and post-graduate APRN certificate program at Rocky Mountain University of Health Professions is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, 202-887-6791.

The Accreditation Review Committee on Education for the Physician Assistant (ARC-PA) has granted Accreditation-Continued status to the Rocky Mountain University of Health Professions Physician Assistant Program sponsored by Rocky Mountain University of Health Professions. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2029. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy. Address: 12000 Findley Road, Suite 150, Johns Creek, GA, 30097, email: arc-pa@arc-pa.org; Website: http://www.arc-pa.org/.

The Master of Science in Speech-Language Pathology program at Rocky Mountain University of Health Professions is a Candidate for Accreditation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (2200 Research Boulevard #310, Rockville, MD 20850, 800-498-2017). Candidacy is “pre-accreditation” status with the CAA, awarded to developing or emerging programs for a maximum period of five years. Award of candidacy allows the program to matriculate students into the program as it continues to document compliance with accreditation standards for the duration of the candidacy accreditation cycle.

As they occur, updates regarding RMUoHP’s accreditation statuses are posted to the University’s website.
Governance

The University is administrated by the administrators and officers listed below, and by various other officers and committees. The Board of Trustees (BoT) guides, advises, and oversees the University relative to fulfilling its mission. The Executive Vice President of Academic Affairs & Provost, Program Directors (PDs), and faculty design and coordinate the various academic programs.

Administrators and Officers

- **President** – Richard P. Nielsen, PT, DHSc, ECS
- **Executive Vice President of Academic Affairs & Provost** – Mark Horacek, PT, PhD, MS
- **Executive Vice President of Operations/Chief Financial Officer** – Jeffrey B. Bate, MBA
- **Executive Vice President of Strategy and Engagement** – Jessica D. Egbert, PhD
- **Chief of Staff, Office of the President** – Sandra Pennington, PhD, RN
- **Vice President of Technology and Chief Information Officer** – David Payne, PA-C
- **Vice Provost Academic Affairs & Post-Professional Programs** – Malissa Martin, EdD, ATC/L
- **Associate Vice President of Academic Administration** – Richard Peterson, MBA
- **Associate Vice President of Enrollment Management** – Bryce Greenberg, MBA
- **Director of Student & Alumni Affairs** – Lori Sisk, MEd

Board of Trustees

- **Chair** – Michael Skurja, Jr., DPT, ECS (Emeritus)
- **Vice Chair** – Bruce “Nick” Burnett, DNP, MSN, FNP-BC, ARNP, FAANP
- **Treasurer** – Ryan Helon, MBA
- **Secretary** – Mary K. Jaco, RN, MSN, NEA-BC
- Paul Burgon
- Janet Dufek, PhD
- Mary Jane Harris, PT, MS, DSc (Hon)
- D. Brent Isaelsen, JD
- J. Philip Knight-Sheen, RN
- Gregory D. Myer, PhD, FACSM, CSCS*D
- Susan Lucht, OTD, OTR/L
- Louis R. Osternig, PhD, ATC
- Rogan Taylor, PT, DPT
- David Williams

Program Directors

**Master of Science in Health Science (MSHS)**

- Darrin Smith, PhD
Master of Physician Assistant Studies (MPAS)
- Michael Nelson, DHSc, PA-C

Master of Science in Speech-Language Pathology (MS SLP)
- Linda J. Spencer, PhD, CC-SLP

Doctor of Physical Therapy–Entry Level (DPT)
- J. Wesley McWhorter, PT, PhD (Program Director)
- Steven G. Wilkinson, PT, PhD (Interim Chair and Program Director)
- Joel Tenbrink, PT, PhD, ATC (Assistant Program Director)

Doctor of Physical Therapy–Transitional, Pediatric Science (tDPT-Peds)
- Jane K. Sweeney, PT, PhD, PCS, FAPTA

Doctor of Occupational Therapy (OTD)
- Michelle Webb, EdD, OTD, OTR/L, CAPS

Doctor of Speech-Language Pathology (SLPD)
- Kenneth O. Simpson, PhD, CCC-SLP

Nursing Programs
- Stephanie J. Richardson, PhD, RN
  - Doctor of Nursing Practice (DNP)
  - Post-Baccalaureate DNP (FNPC)
  - Post—Graduate Family Nurse Practitioner Certificate Program (FNPC)
  - Post-Graduate Psychiatric Mental Health Nurse Practitioner Certificate Program (PMHNPC)

Doctor of Medical Science (DMSc)
- Bartley Rust, DHSc, PA-C

Doctor of Philosophy in Health Sciences (PhD)
- Thomas Cappaert, PhD, ATC, CSCS

Elective and Concentration Track Directors

PhD Concentration Track Directors
- Athletic Training – Malissa Martin, EdD, ATC/L (PD and CTD)
- Health Promotion & Wellness – Jeff Lynn, PhD, NBC-HWC, FIOC
- Healthcare Professions Education – Kelly Simmons, DPN, RN
- Healthcare Leadership and Administration – Kelly Simmons, DPN, RN
- Human Sports and Performance – Mike Miller PhD, EdD, ATC, CSCS
- Neurologic Rehabilitation – Kristen Johnson, PT, EdD, MS, NCS
- Pediatric Science – Jane Sweeney, PhD, PT
OTD Elective Track Directors
- Assistive Technology – Lynn Gitlow, PhD, OTR/L, ATP, FAOTA
- Behavioral & Mental Health – Sarah Mbiza, PhD, CRC, OTR/L
- Education – Michelle L. Webb, EdD, OTD, OTR/L, CAPS
- Hand Therapy – Kristin Biggins, OTD, OTR/L, CHT, CYT-C
- Leadership – Ellen Hudgins, OTD, OTR/L
- Pediatrics – Susan Zapf, PhD, OTR, BCP, ATP

MSHS Concentration Track Directors
- Health & Wellness Coaching – Jeff Lynn, PhD, NBC-HWC, FIOC
- Rehabilitative Science – Darrin Smith, PhD, LAT, PES
- Sport Performance - Darrin Smith, PhD, LAT, PES

University Staff
The University Staff handle all incoming and outgoing correspondence by email, mail, fax, and telephone. Regular office hours are 8AM – 5:30PM Mountain Time, Monday through Friday. Each staff member, administrator, program director (PD), elective track director (ETD) and concentration track director (CTD) can be reached via his or her email address, which is the first letter of his or her first name followed by last name @rm.edu (i.e., John Doe would be jdoe@rm.edu). The following general email addresses are also useful:
- Admissions – admissions@rm.edu
- Alumni Board – alumniboard@rm.edu
- Alumni Relations – alumni@rm.edu
- Finance Office – financeoffice@rm.edu
- Financial Aid – fa@rm.edu
- General Inquiries – info@rm.edu
- Institutional Effectiveness – ie@rm.edu
- Institutional Equity Officer – ieo@rm.edu
- Institutional Review Board – irb@rm.edu
- Library Services – library@rm.edu
- Marketing – marketing@rm.edu
- Public Relations – pr@rm.edu
- Registrar’s Office – registrar@rm.edu
- RMUoHP Foundation – foundation@rm.edu
- Student Affairs – studentaffairs@rm.edu
- Student Support Services – studentservices@rm.edu
- Provost’s Office – academicdean@rm.edu
- Instructional Technology – instructionaltech@rm.edu
Executive Vice President of Academic Affairs & Provost

The Executive Vice President of Academic Affairs & Provost (Provost) is the chief academic officer of the University and provides leadership for all academic departments and academic programs. The Provost assumes central roles in faculty recruitment, evaluation, and continuing professional development. This person works closely with other members of the University's senior administration on budgetary, academic, strategic planning, educational policy issues, accreditation actions, and assessment and continuous improvement efforts. The Provost is responsible for the effective, ethical, and efficient operation of academic activities within the policies, directions, and plans of the University. The Provost oversees all PDs and academic programs.

Program Directors (PDs)

PDs have been selected from the pool of nationally recognized faculty throughout the United States based upon their expertise in a selected specialty, their ability to identify the scope of knowledge and practice skill necessary to achieve the goals of the University, their ability to teach and to identify additional faculty to teach across the scope of their disciplines, and their ability to mentor health science students. The primary responsibilities of the PD include curriculum development, admissions review, coordination of faculty, instructional supervision, testing and evaluation, assistance in coordination of the practicum, capstone, and scholarly project or dissertation, assuring the academic integrity of the standards of RMUoHP, providing academic counseling, advising, guidance, and mentoring to students during all phases of the academic program, program assessment, and participating in University governance activities.

Faculty Members

Faculty members are comprised of PDs, full-time, part-time, affiliated, adjunct, and clinical faculty. The University faculty members are actively engaged in research and clinical practice, and possess academic knowledge that meets the highest standards of academic scholarship and professional practice in the health sciences. The faculty members demonstrate exemplary skills through their practice of adult education principles, as they provide instruction, assessment, advising, and mentoring to students across all facets of the educational experiences at RMUoHP.

University Governance

The university employs a shared governance model. This includes a President’s Cabinet, Faculty Senate, and Employee Senate. The President’s Cabinet includes key university officers and other administrators. The senate bodies are comprised of representatives from the relevant areas. This shared governance model allows input from diverse constituents in the decision making process.

University Committees

**Academic Appeals Committee** - This committee receives and reviews all appeals of disciplinary actions from students or faculty. The committee makes all inquiries as appropriate, documents all discussions, deliberates decisions and makes recommendations to the Provost. The committee also reviews the University’s Honor Code and Policies and Procedures related to the grievance/appeals process and makes recommendations to the Provost for action.

**Academic Leadership Council (ALC)** - The ALC consists of all Program Directors, Vice Provosts, and the Provost. The ALC meets monthly to address matters of academic interest to the University. The Vice Provosts co-chair the ALC. Members may discuss and vote on all matters specifically related to the school as well as matters related to overall University business. A total of 50% of governing body constitute a quorum for voting purposes.

**Assessment Committee** - The Assessment Committee works to promote an integrated culture of assessment within the University’s degree programs and consistent with the University mission, core values, and comprehensive strategic plan. The committee is charged with identifying best assessment practices for student
learning, reviewing degree program assessment processes, and coordinating assessment feedback and assistance to programs.

**Committee on Inclusiveness** - The Committee on Inclusiveness provides advice and recommendations to the University on strategies and procedures for creating an inclusive environment for all students, faculty, and staff. The committee serves in an advisory capacity regarding the diversity of the faculty, staff, and students. The committee advises the university on accommodation requests or concerns from faculty or students with unique challenges. As a member of the committee, the ADA officer is responsible for oversight of implementing federal and state laws and regulations governing equal access/opportunity.

**Curriculum Review Committee** - The Curriculum Committee is responsible for oversight of the curricular threads of the University as identified in the University’s mission and goals. It approves and makes recommendations for all new program curricula, curricular revisions, and makes recommendations regarding core courses and workshops.

**Faculty Position, Rank, and Promotion Committee** - The purposes of this committee are to develop, review, and revise faculty role and responsibility policy and procedures and present these for action. The committee also reviews all recommendations and applications for faculty promotions and makes subsequent recommendations to the EVPAA/Provost.

**Library Committee** - This Committee is responsible for oversight of the library functions, goals, and resources. It advises the Provost regarding needed resources, library statistics, and budgetary planning.

**Institutional Review Board**

The University's Institutional Review Board (IRB) is composed of at least five members, including scientific members, a non-scientist, and a community member. The IRB functions to: 1) determine and certify that all research projects approved by the IRB conform to the regulations and policies set forth by the Department of Health and Human Services regarding the health, welfare, safety, rights, and privileges of human subjects; and, 2) assist the investigator in complying with federal and state regulations in a manner that permits accomplishment of the research activity.

**Program Advisory Panels and Councils**

Program Advisory Panels are affiliated with each specialty area and consist of a maximum of six individuals who are subject matter experts, including the PD. Advisory panel members assist the PD by reviewing the program curriculum, syllabi, and qualifying examinations. Advisors are also expected to participate in bi-annual program faculty meetings (via teleconference), and to assist in program evaluation. Advisors have expanded roles during development of new programs. The advisory panel regularly communicates with the PD or CTD/ETD (as required) and offers candid advice.

**Alumni Association Board**

The organization and affairs of the Alumni Association are governed by the Alumni Association Board. The Alumni Association Board serves as a liaison between alumni and University administration to provide input on alumni activities, recognition, involvement, and engagement.
University Web Access

The University maintains an Internet presence at [http://www.rm.edu](http://www.rm.edu). Current information about the campus, curricula, faculty, news, accreditation, and other helpful resources are provided on the website. The University’s learning management system, Canvas, is available through the Okta login. The Student Portal is located at [https://rmuohpselfservice.topschoollive.com](https://rmuohpselfservice.topschoollive.com).

Learning Resource Center and Bookstore

The University provides students, faculty, and staff with access to medical, nursing, and allied health reference material, print and electronic journals, eBooks, and course-required textbooks. Circulation of Library materials for students, faculty, and staff is for two weeks and may be renewed once so long as no holds have been placed on the item. Late fees are not accessed but we ask that you be considerate of other patrons. The LRC provides free printing/copying, faxing, book scanning, study carrels, group study rooms, a collaboration table, and a Testing Center.

The LRC is staffed by three full-time librarians and a part-time Interlibrary Loan clerk. Library staff are available from 8:30 am to 5:30 pm. On campus facilities are open 24/7. Contact the librarians by email at library@rm.edu. Request the full-text of article via articlerequests@rm.edu. Faculty and students are encouraged to make suggestions for service or collection improvements, including book and journal purchase recommendations.

Databases

Databases include the following:

- PubMed
- EBSCO
  - Cinahl Complete
  - Cochrane Library
  - Education Research Complete
  - Health and Psychosocial Instruments (HaPI)
  - Medline Complete
  - PsycINFO/PsycARTICLES/PsycTESTS
  - SportDiscus
- OVID
  - LWW Premier Nursing Collection
  - Biomedical Collection IV
- McGraw Hill
  - AccessMedicine
  - AccessPhysiotherapy
  - F.A.Davis PT Collection
  - JAMA Evidence
- Theime
  - Teaching Assistant Anatomy
- ProQuest
  - ComDisDome (Communication Disorders)
  - ProQuest Dissertation and Theses Global
- Oxford Press
  - AMA Manual of Style (Online)
Faculty has access to the following resources:

- Chronicle of Higher Education
- Academic Leader

Some programs have some specific resources such as the following:

- UpToDate
- Psychotherapy.net
- Symptom Media

In addition, students and faculty have access to our institutional subscription of EndNote.

RMUoHP students are provided library privileges for the duration of their formal enrollment with the University. Additionally, RMUoHP alumni can request access to our EBSCO databases by visiting lrc.rm.edu/main/alumni-services.

Interlibrary Loans (ILL)

If articles are not available in full text format, the LRC provides Interlibrary Loan services (ILL). Requests may be addressed to articlerequests@rm.edu. Please providing as much bibliographic information as possible to expedite the request process. Please allow approximately five business days for requests to be filled.

Research Instruction

The librarian present blended and hands-on workshops on database searching. Training is tailored to the specialty being studied, and includes PowerPoints, videos, and in person sessions. Completion of RMU 101 (located on Canvas) is required of all new students.

The librarians also provide one-on-one tutoring in person, by phone, or through the Book a Librarian feature on the LRC Website. Students and faculty can make requests through the link on LibLynx or lrc.rm.edu.

RMUoHP Bookstore

RMUoHP’s students purchase textbooks and software at the vendor of their choosing. To find out what textbooks are required, go to https://bookstore.mbsdirect.net/vbm/vb_home.php?FVCUSNO=37637&url=rmuohp.htm, click on “Let’s Get Started.” Select the correct term, cohort (site), and course. Required and recommended textbooks will be listed. Recommended books are optional. For your convenience, books can be ordered from this site, or you can order from any other site you wish. For more information about the bookstore, visit rm.edu and look under “Current Students.”

Testing Center

The purpose of the Testing Center is to support the University’s mission and vision by providing a quiet, designated area for students to take proctored tests with the necessary accommodations required to facilitate success. It is open by appointment Monday – Friday 8AM to 6PM in the Learning Resource Center, Bldg. 3.

To request a proctored exam, please visit https://lrc.rm.edu/main/testing-center/. There are two forms; one for faculty and the other for students. Requested appointments will be confirmed by email. Any other questions or comments can be emailed to the Testing Center Coordinator, monica.benavides@rm.edu.

Parking and Public Transportation

Parking facilities are provided at the University for students, faculty, staff, and administration at no charge for automobiles, motorcycles, and bicycles.

Parking passes are to be visible in vehicles at all times while parked in the designated RMUoHP parking areas. Temporary parking passes are available at the receptionist desk.
Public transportation is available through Utah Transit Authority (UTA). All of UTA’s fixed route bus and TRAX light rail service are wheelchair accessible with life-equipped or low floor buses and trains. In addition, other accommodations such as stop announcements made by drivers and assisting passengers with disabilities make using the fixed route bus service possible for many people with disabilities. RMU student monthly discounted passes are also available for purchase. For more information or to purchase a pass, please contact the department of student & Alumni Affairs Student Services office studentservices@rm.edu, 801.375.5125.

Additionally, free local transportation may be available from hotels in which post-professional students stay during their on-campus modules. Students should confirm shuttle availability with their hotel.

**Housing**

A variety of housing options are available to RMUoHP students within Provo and the surrounding area. All housing is off-campus and generally includes apartments or houses for residential students and discounted hotels for non-residential, post-professional students. The University does not own, operate, or maintain housing facilities for students and students are permitted to stay in a facility of their choosing. Students are encouraged to obtain housing that is convenient, clean, and safe.

Housing resources, including links to potential housing websites and the University’s discounted hotels, are available from the Student Affairs webpage of the University website for both residential and post-professional students. This information is provided to students upon admission. Additionally, all students are encouraged to maximize Internet tools to locate housing.

For assistance on housing-related questions, students may contact the department of Student & Alumni Affairs Student Services office at studentservices@rm.edu or 801.375.5125.

**Identification Cards**

During the first semester of the degree program, RMUoHP provides each student with a student identification card and lanyard. The ID card is nontransferable, and any student who allows another person to use his or her ID card is subject to disciplinary action. The University requires students to visibly display (on the upper body) a student identification card when on campus.

A student who loses his or her identification card must immediately report to the Campus Operations Manager to order a new identification card. Students may obtain a temporary identification card from the front desk while the new identification card is processed or if a student forgets his or her identification card. No student may use a temporary identification badge for longer than required to receive the new identification card.

A student is subject to a $10 identification card replacement fee and $3 RMUoHP lanyard fee. Students are not required to use RMUoHP lanyards or clips so long as the identification card is properly displayed on the upper body. Replacement identification cards, lanyards, and clips are obtained through the front desk.

To report a lost or stolen identification card and request replacement, contact the Campus Operations manager at 801.734.6828 or pboothe@rm.edu.

**Campus Safety**

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act mandates that all Title IV institutions prepare, publish and distribute an annual campus safety and crime report that includes all campus grounds and buildings, public property adjacent to campus, and non-campus buildings owned or controlled by the University that is used for educational purposes. This report is published and distributed prior to October 1 of the following calendar year. The data in this report have been obtained in cooperation with the Provo Police Department. Information regarding the official state of Utah sex offender registry can be found at www.corrections.utah.gov.
The University tracks and reports crime and arrest statistics as required by the Crime Awareness and Campus Security Act of 2000. The current Campus Safety and Crime Report is available on the University Website.

</table>
Police and Security Services

RMUoHP does not employ University police services and relies upon the Provo Police Department for police and security-related issues. Also available is the East Bay Technology Park security. They can be reached at 385-285-6258, M-Th from 6:00 pm - 2:00 am and from 6:00 pm Friday through 2:00 am Monday. Student identification badges are issued through the University; all students, faculty members, employees, and visitors must display appropriate identification when on campus. Many RMUoHP employees are CPR-certified and trained in several fields of healthcare; automated external defibrillators and first aid kits are also available on campus.

Campus Firearms Policy

In accordance with Title 53, Chapter 5 Part 7 of the Utah Code, students are prohibited from bringing loaded firearms onto University premises. Possession, use or sale of weapons, firearms or explosives on work premises, while operating RMUoHP machinery, equipment or vehicles for work-related purposes or while engaged in RMUoHP business off premises is forbidden. This policy applies to all students, faculty members, and employees, including but not limited to, those who have a valid permit to carry a firearm. This policy does not apply to firearms stored in the student’s or employee’s locked motor vehicle. Violations of this policy will result in disciplinary action, up to and including dismissal.
Student Responsibility

As members of the RMUoHP community, students and employees should adhere to appropriate safety measures by being aware of personal conduct that could impact their safety and wellness. Students and employees should lock their doors, travel in groups whenever possible, secure valuables, and make educated decisions regarding participation in activities.

Reporting Crimes and Medical Emergencies

In the case of emergency, students, faculty and staff should dial 911 and report the emergency. For non-emergencies the Provo Police Department may be contacted at 801.852.6300. All crimes and medical emergencies should also be reported to the Campus Safety Officer using the Incident Report Form located as an appendix to the Continuity and Risk Management Plan. To report discrimination, harassment, sexual misconduct, or similar behaviors, see below in Discrimination, Harassment, Sexual Misconduct, and Institutional Equity, page 43.

Medical Emergencies and Services

In case of emergency, a student should immediately dial 911 and report the emergency to a University employee. For minor incidents or major cardiac emergencies, the University has available a first aid kit and an automated external defibrillator. While on campus, any student, employee, or guest of the University that requires emergency medical attention may have the required care summoned from local resources at the discretion of the employee(s). Students assume responsibility for their healthcare and the financial responsibility for any required medical, dental, or mental health assistance. Therefore, in non-emergency situations, students are encouraged to seek healthcare providers covered via his or her insurance policy. In all cases, involved students must complete an Incident Form available from the University’s Safety Officer.

The University is conveniently located near a regional hospital (Utah Valley Regional Medical Center; http://intermountainhealthcare.org/hospitals/uvrmc/Pages/home.aspx) that provides comprehensive services. The University provides a listing of additional medical, dental, and mental health resources on the Student Services link of the University website. While the listings represent a portion of facilities within a reasonable proximity to the University and its students, the listings do not indicate the University’s recommendation for any particular facility or provider. Students are both responsible for selecting quality healthcare providers and, as previously stated, paying all costs associated with his or her healthcare. To ensure insurance coverage, a student should first contact his or her insurance company for a list of covered facilities and receive care at an appropriate facility.

For assistance with non-emergency healthcare-related questions, students may contact the department of Student & Alumni Affairs Student Services office at studentservices@rm.edu or 801.375.5125.

For additional information on emergency plans and services, students may also reference the University’s Continuity and Risk Management Plan or Annual Campus Safety and Crime Report, available through the Vice President of Administration.

Fire Safety and Equipment

Regularly-inspected fire extinguishers are located throughout the RMUoHP campus. In addition, evacuation maps are posted throughout the buildings. Students should note the nearest fire extinguisher(s) and evacuation routes posted throughout the campus.

Assistance for Disabled Students

The University complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990 by assisting with special access to the University and its premises. Students who need special
assistance should contact the Department of Student & Alumni Affairs Institutional Equity Officer, ieo@rm.edu to determine and clarify what needs may be accommodated and the process for obtaining such accommodations (see section on Learning Disabilities/Physical Challenges).

**Student Health Insurance**

RMUoHP requires entry-level Doctor of Physical Therapy (eDPT), Master of Physician Assistant Studies (MPAS), and Master of Science in Speech-Language Pathology (MS SLP) students to provide to the University upon enrollment evidence of health insurance coverage. Should a student need to purchase coverage, he or she may seek options through a preferred agent or agency (i.e., HealthCare.gov, Medicaid.gov).

For questions or assistance please contact the department of Student & Alumni Affairs Student Services office at studentservices@rm.edu or 801.375.5125.

**Campus Information**

**Location**

The University is currently located at 122 East 1700 South in Provo, Utah. This is approximately 40 miles south of Salt Lake City and along the base of the beautiful Wasatch Mountains.

**University Laboratory Spaces**

The University provides laboratory spaces for research, psychomotor, and electromyography (EMG) activities. A cadaver laboratory is also available.

**Alcohol-, Tobacco-, and Drug-Free Environment Policy**

The University is committed to the promotion of healthy behaviors. Therefore, tobacco use in any form is not permitted inside or within 25 feet of any University building. Students and employees are expected to follow all smoking laws as dictated by the State of Utah.

The University supports the Drug-Free Schools and Communities Act and Drug-Free Schools and Campuses Regulations in preventing the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees. Alcoholic beverages and illegal drugs are not permitted anywhere on the University campus, including the grounds and parking lots. Alcohol use is not permitted by students or faculty while attending class-related activities associated with the University (i.e., clinical settings, research data collection, etc.). Information regarding the health-related impacts of alcohol, tobacco, and drug-use may be found at the following websites:

- [http://www.cancer.org/docroot/PED/ped_10_1.asp](http://www.cancer.org/docroot/PED/ped_10_1.asp)
- [https://www.campusdrugprevention.gov/](https://www.campusdrugprevention.gov/)

Violations of the University’s alcohol-, tobacco-, and drug-free environment policy are subject to consequences as defined under Conduct and Behavior. Information on Utah’s alcohol, tobacco, and drug laws and penalties may be found at the following websites:

- [http://www.tobaccofreeutah.org/laws](http://www.tobaccofreeutah.org/laws)
- [http://www.utah.gov/residents/utahlaws.html](http://www.utah.gov/residents/utahlaws.html)

While the University is concerned for the health and well-being of all students, students who may be concerned about alcohol or other drug use may consider contacting one of several nation-wide self-help services:

• Alcoholics Anonymous – 801.375.8620 (Provo) or http://www.aa.org
• Al-Anon - 888.425.2666 or http://www.al-anon.alateen.org/
• Cocaine Anonymous - 310.559.5833 or http://www.ca.org/
• Narcotics Anonymous – 818.773.9999 or http://www.na.org/
• The Foundation for a Smoke-free America – 310.577.9828 or http://www.anti-smoking.org/quitting.htm

Animals on Campus

Adherent to the University's external property management rules and regulations, no animals are allowed on the premises. An exception to the property management company's rules and regulations is for service animals as defined by federal law. It is prohibited to ask any individual if an animal is a service animal; however, you are legally allowed to ask, "what specific purpose the animal is trained to provide?" If the animal is not trained to provide a service, as defined by federal law, then the animal is not allowed on the premises. Note that emotional-support animals are not covered under the federal policy and are therefore not considered to be service animals.

For additional questions, concerns, or feedback please contact the University's Institutional Equity Officer ieo@rm.edu.

Other Information

University Communication

University notices delivered through regular mail as well as email are considered official University communication.

Student Email Usage

Upon enrollment, Rocky Mountain University of Health Professions (RMUoHP) provides to all degree-seeking students a students.rm.edu email account to be used for all University-related electronic communications.

The RMUoHP email system is intended for use by the student as part of the overall RMUoHP educational experience. Therefore, in association with RMUoHP’s student email accounts, students may not:

• Use another student’s email account or allow others access to his or her own account. Users are responsible for how their email accounts are used; passwords may not be shared with or used by persons other than those to whom they have been assigned. Users who fail to safeguard their account information or engage in unauthorized account sharing may be subject to disciplinary action;
• Transmit or display harassing materials, including sexually-explicit images and messages, ethnic slurs, racial epithets or anything that could be construed as harassment to others;
• Download, save, send, or access any defamatory, fraudulent, discriminatory, or obscene material;
• Solicit students or others for activities unrelated to official University activities, commercial or business purposes or for personal gain;
• Infringe upon intellectual property rights, including but not limited to copyrights; including violation of the Digital Millennium Copyright Act (DMCA). The use of an internet connection to share copyrighted materials (i.e. files, programs, songs, videos/ movies, etc.) without permission of the copyright owner(s), is in violation of the DMCA. When RMUoHP discovers or is informed by the copyright holder of a potential copyright violation, the University is required by Federal Law to remove the copyrighted materials from the system in question. If RMUoHP system administrators are unable to remove these materials, then the network access for the system in question will be terminated until removal of the infringed materials is confirmed.
• Attempt to gain unauthorized or unlawful access to computers, equipment, networks, or systems of the University or any other person or entity;
• Violate or attempt to violate any law.
Academic Integrity and Student Conduct and Behavior policies apply to student email accounts. Violation of academic integrity and/or student conduct and behavior policies may result in dismissal.

Student email systems are RMUoHP property and may be accessed by the RMUoHP System Administrator or the Executive Vice President of Academic Affairs (EVPAA)/ Provost with or without cause. RMUoHP reserves the right to access and/or remove any files in violation of University policy. RMUoHP cannot and does not guarantee user email or other network privacy, and therefore users should not have an expectation of privacy.

Email system usage and access is compliant with The Family Educational Rights and Privacy Act (FERPA). Students are responsible for maintaining a secure password and appropriate computer security to prevent unauthorized access. To ensure the security of student-related information, RMUoHP personnel should not communicate official student information with non-RMUoHP email accounts.

Student email accounts are disabled one (1) year after student graduation or discontinued enrollment. Student email accounts are disabled immediately upon dismissal.

**Student Use of Technology**

University Systems include, but are not limited to: computing and software; data storage devices and the associated data; network and the transmitted data; printers, copiers, cameras, and other imaging devices; internet connectivity; email; phones; and voicemail.

University Systems furnished to employees and students are the property of RMUoHP. As such, computer usage, files, and data communication may be monitored or accessed by RMUoHP or any of its authorized agents. The University will provide information to authorities and cooperate in investigations where illegal activity by either employees or students is suspected.

When using University Systems students must abide by applicable University regulations and federal, state, and local laws.

- Students must not download and/or use peer-to-peer file sharing to obtain or distribute illegal copies of digital media.
- Students shall refrain from attempting to gain unauthorized or non-academic access to systems, accounts, or information including the use of destructive or invasive software or hardware such as viruses, keyloggers, and network scanners.
- When accessing network resources and internet connectivity provided by the University, students are encouraged to refrain from unnecessary media streaming and downloading, such as movies and televised events.
- Students must not view, store, or transmit pornography.

The sections on 1) Conduct and Behavior and 2) Violation of Academic Integrity and Code of Conduct in the University Handbook address disciplinary action for related violations.

It is recommended that students have an active antimalware/ antispyware solution and passphrases to protect their personal computers, accounts, and data.

**Copyright Infringement**

All copyrighted materials "must be used in conformance with applicable copyright and other laws." Downloading or distributing copyrighted material, e.g. documents, books, programs, music, movies, videos, text, etc., without permission from the rightful owner violates the United States Copyright Act.

The copying of digital copyrighted materials, such as third-party software, without the express written permission of the owner of the proper license is illegal. These include and are not limited to music, software, movies and television programs that are in violation of the Federal Digital Millennium Copyright Act (DMCA) and other Federal Copyright laws. Students are prohibited from using these file-sharing networks on any University, provided network, including the Wi-Fi network.
Infringement of Copyright Laws

Federal law provides severe civil and criminal penalties for the unauthorized reproduction, distribution, or exhibition of copyrighted materials. Criminal copyright infringement is investigated by the Federal Bureau of Investigation. The penalties may depend upon the amount and the willfulness of the infringing activity and can range from civil liability, criminal liability, money damages, including reimbursement of attorneys’ fees and costs. In a civil lawsuit, the penalty for copyright infringement can range from $1,000 to $30,000 per copyrighted work infringed. This penalty can be increased to $150,000 per infringed work in cases of particularly flagrant infringement. In the most serious and widespread cases of copyright infringement, criminal prosecution is possible.

Investigation of Infringement Complaints

Allegations of copyright infringement by University students, that violate the DCMA, will be investigated. The infringement will be reported to the Vice Provost/Academic Dean for appropriate action. If the Academy determines that any users have violated any copyright laws, the offending user’s access to online services may be terminated or the student may be dismissed. The University reserves the right to choose how to address or respond to any allegation of copyright infringement received.

Religious Holidays

In preparation of the academic calendar, generally two years in advance of any single enrollment date, the University makes every effort to avoid conflicts with major religious holidays. However, if conflicts occur, consideration is made for the student’s request within University guidelines.

Because the academic calendar for each program is established in advance of the student’s enrollment, the student is expected to accept the responsibility to attend classes as scheduled. Prior to enrollment in a post-professional program, the student may request special arrangements to avoid a conflict due to religious practices, however, it is at the University’s discretion to approve, deny, and manage these requests. Because the on-site portion of a semester is integral to the degree program, post-professional students may not miss any on-site portion of their semester and proceed with their degree program cohort without prior approval (see Attendance Policy section).

All policies regarding missed classes will apply in the event a student misses class due to a religious holiday. Students with class conflicts because of religious holidays should notify their Program Director (PD) before they begin the program. Students who believe they have been unreasonably denied an educational benefit due to their religious beliefs or practices may bring the matter to the attention of the PD, or when for any reason this would not be appropriate, to the Provost.

Inclement Weather

Inclement weather is defined as weather that could inhibit traveling to campus or any weather conditions that may cause the campus to close/delay/change normal operational hours. In the event of inclement weather, the University recognizes the need to address how such conditions may affect the overall operations of the University with respect to student travel and schedules.

The campus Emergency Notification System (ENS) will be utilized for communicating with employees and students registered in the ENS concerning any campus-wide closings, delays, early dismissals, or any alterations to the University’s operational hours.

The responsibility of the RMUoHP Administration/Campus Operations is as follows:

Students are not expected to endanger their safety to travel to campus. Every effort will be made to broadcast decisions pertaining to University closure via the ENS. Either the President or Provost will determine if the situation requires dismissal of employees and students and cancellation of University
activities. In cases when students or employees are on campus at the time when external conditions become threatening to human safety, appropriate arrangements for shelter in place will be implemented. If the decision to close the campus due to inclement weather is made, the following procedures will be followed:

1. Students will be notified through the ENS.
2. If the closure is expected to last more than 48 hours the University will make an effort to notify the public via notice through local and regional media sources (University web page, local television, radio, and the Daily Herald online) at the earliest time reasonably possible.
3. The University’s webpage will be updated by the Web Administrator when required.

The responsibility of the RMUoHP Program Directors is as follows:
The individual Program Directors are responsible for communicating with each cohort proper notice of any program schedule changes that are to be implemented due to inclement weather. If possible, Program Directors should give a 24-hour notice of schedule changes that are due to inclement weather. Each program will communicate with cohorts by emergency contact information, University emails, an announcement posted on the program’s central webpage, or any method that has been provided for cohort access. The extent of permissible excused or unexcused absences for students from program scheduled instruction due to inclement weather will also be at the discretion of the Program Director (PD) in collaboration with the teaching faculty.

The responsibility of the Students is as follows:
Each student is responsible for notifying their respective PD of any challenges that may arise due to inclement weather. The student will be responsible for contacting the PD, or specific instructor, to identify the procedure for completing any missed course work.
Academic Model

The University uses an integrative approach to health sciences and practice. Students complete coursework in the residential, entry-level DPT, MS SLP, and MPAS programs, and the limited-residency, post-professional programs both on-site in a traditional classroom setting as well as off-site using the Canvas learning management system. Students in the post-baccalaureate DNP (FNP), entry-level DPT, MPAS, and SLPD programs complete various clinical internships as part of their program.

Program Directors (PDs), Concentration Track Directors (CTDs), Elective Track Directors (ETDs), and other faculty members model the continuous integration of scientific knowledge and current professional practices with evidence-based principles. They strive to achieve the goal of fostering a career-long approach that interweaves health science knowledge, investigative methods, and sound patient or client management.

The University places a high and equal value on scholarship, clinical training, and practice. The integration of health science theory, research, and clinical practice allows students to gain the following attributes:

- An ability to critically evaluate and integrate theoretical concepts in the health sciences.
- An ability to analyze and practice the principles and methods of scientific inquiry applicable to the study of the human condition and healthcare practices.
- Mastery of practical and clinical skills essential for professional practice in settings within the contemporary healthcare industry.
- Skills to critically read published research and to apply those evidence-based principles in a responsible and appropriate manner.
- Skills to work cooperatively with colleagues at all levels of service in the healthcare system.
- A demonstrated commitment to personal and professional ethical standards.
- A demonstrated commitment to continuing personal and professional development and lifelong learning.
- A commitment to wellness and the knowledge/practice of preventive measures to ensure optimal healthcare.

In addition to these goals, the PhD program also prepares graduates to develop the following attributes:

- An ability to practice the principles and methods of scientific inquiry and research methodologies applicable to the study of the human condition and healthcare practices.
- Skills to generate original thought and research.

RMUoHP considers the best educational model for a changing healthcare environment to be an integration of clinical inquiry, practical experience, and research. To achieve the desired outcomes, the integration of these elements begins early in the student’s education and continues throughout his or her graduate program. The use of library and information resources at RMUoHP is emphasized in all programs, and relies upon several educational strategies that vary based upon the nature of the academic program. These specific strategies complement the general goals of each degree program, as listed in the program curricula.

**Didactic Education**

RMUoHP uses a variety of learning methods in course delivery. The blended and residential environments are viewed as a critical forum for inquiry where faculty and students interact in a scholarly manner. Curricular content in all programs includes the presentation of classic scholarly works as well as current theoretical concepts and research. Openness to new ideas and applications is encouraged as both theory and research is critically evaluated. Faculty members are encouraged to place additional emphasis on how research and theory relate to
the healthcare delivery system and clinical practice. A foundation based on the Institutional Learning Goals (Evidence-based Practice, Leadership, and Scholarship) permeates all academic curricula.

Every effort is made to expose students to a range of professional role models from various specialty fields, practice settings, and demographic areas of society. Faculty are encouraged to use a variety of communication methods to be accessible to student inquiries and to dialogue with students to facilitate the students’ learning and professional growth.

**Students as Professionals**

The educational model of the University requires students to be self-directed and to take individual responsibility for and commitment to their education. This is accomplished through extensive reading, classroom preparation and participation, and web-based communication and study. The post-professional programs allow for an interactive format while on-site and enhanced distance learning off-site. On-site and off-site, students are expected to critically analyze information and to contribute to the scholarly atmosphere of the educational process.

A positive educational opportunity is afforded the students as they affiliate and interact, formally and informally, with experienced healthcare practitioners, educators, and researchers from other disciplines with similar or related interests. This interaction with other health professionals adds a rich dimension to the student's overall educational experience.

**Continuous Enrollment Requirement**

Current and future students enrolled in any program are required to maintain continuous enrollment at the University until all degree requirements have been completed.

**Semester and Credit Unit Basis of Educational Model**

The University operates on a trimester basis and academic credit units are defined as semester credits. Each semester consists of approximately 15 weeks. RMUoHP defines the credit hour as: an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of non-instructional student work each week for approximately fifteen weeks for one semester, or the equivalent amount of work over a different amount of time, -OR-

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, seminar, practica, and other academic work leading to the award of credit hours, -OR-

(3) At least an equivalent amount of work as required in paragraph (1) of this definition for the amount of engaged learning and established expectations in order to achieve satisfactory performance in blended or online courses for the credit hour.

In the limited-residency model, one day of face-to-face instruction comprises 9 lecture hours; the remainder of a single credit unit is estimated at 6 online course hours. Each course delivery model is outlined in the program curriculum and course syllabus. The University also has a comprehensive Course Catalog (a separate document from the University Handbook) which lists all courses offered at the University, including the course descriptions. The Catalog may be downloaded from the University website or requested through the Office of the Registrar.

Within both the residential and limited-residency degree programs, all courses are web-enhanced. Each degree program also includes on-campus requirements, which differ based on the educational model employed for a course, semester, or degree program. The limited-residency model uses online instruction in conjunction with
immersion periods on campus to facilitate learning throughout the degree program. The residential programming in the entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs also includes some online instruction.

Full-time Status

Full-time status is defined as concurrent enrollment in a minimum of three graduate semester credits. A student requiring written verification of full-time status must submit the request in writing to the Registrar’s Office. Once the student’s period of enrollment is verified, the Registrar’s Office will complete a letter or form of the student’s request.

Course Delivery

RMUoHP offers blended course delivery, which includes course delivery enhancement via the University’s learning management system, Canvas. Each course may include submission of course materials, document sharing, and threaded discussion forums, or live conferencing online. Within each blended program model, some programs may also include online courses. Each course syllabus clearly identifies to the student the expectations for both face-to-face and online engagement. Additionally, residential students may complete online coursework during the clinical portion of the program.
Course Registration Procedure

Semester, registration and other important dates are available on the Academic Calendars located on the RMUoHP website at https://rm.edu/academic-affairs/general-student-information-forms/.

Students may register for or drop courses using the Add-Drop form, available on the University website. The course registration period for each semester is listed in the academic calendar. During this period, students may:

- register for courses at regular tuition rates.
- drop courses without any academic or financial penalty (the student’s PD[s] will rule on the request if the course is required for the student’s program). Courses dropped will not appear on the student transcript.

The add/drop period for the semester is listed in the academic calendar. The student’s PD(s) will rule on requests to add or drop courses during and after this time period.

During this period, students may:

- register for courses for a Late-Add fee of $50 (applied per course).
- drop one or more courses without academic penalty and may be eligible for tuition refunds in accordance with the University refund policy as described in the student’s ‘Tuition and Fee Information’ provided at the time of enrollment.

After the add/drop period students may no longer register for a course in the applicable semester.

Attendance Policy

Engagement with faculty and other students is a vital component of the University learning experience. Limited-Residency attendance is broken into two areas: On-Site Attendance, and Online Attendance. On-Site Attendance refers to the policies related to attendance at the on-site sessions on campus in Provo, Utah. On-site dates for each cohort are listed in the curricula located on the RMUoHP Website’s “Program Curricula & Schedules” page. Online Attendance refers to the participation policies for the majority of the semester when the student is not at the campus. Policies for each section are included below.

On-Site Attendance:

Students are expected to attend every scheduled on-site class and laboratory experience. Limited-residency students requesting to miss all or part of an on-site day will be required to obtain prior written approval from the Program Director (PD) and faculty of that course. Missing all or part of an on-site course day, without the appropriate prior approvals, will result in a non-passing grade for the course. Any special accommodations to attendance of on-site sessions, such as recording, must be approved and arranged prior to the on-site dates.

In certain extenuating circumstances an exception to the prior approval requirement may be made, and a student who misses on-site day(s) without prior written approval may be allowed to complete the course for a passing grade. It is the responsibility of the student to notify the PD and faculty as soon as possible when this type of situation occurs. The PD will determine if an exception will be made on a case by case basis. The PD may request documentation from the student regarding the extenuating circumstance.

In cases where an absence is preapproved, or an exception is made due to extenuating circumstances, the faculty of record has the authority to decide whether work will be permitted to be made up. The decision of the faculty in this case is final.
Limited-residency students should not schedule return flights prior to 8:00 pm on the final day of courses. Approval by the PD and either the Associate Vice President of Academic Affairs (AVPAA), Executive Vice President of Academic Affairs/Provost must be obtained prior to making travel reservations that conflict with this requirement.

Online Attendance:

Students are expected to participate weekly in all web engagement activities outlined in the syllabus. Per federal Title IV regulations, the University is required to demonstrate that students are participating on a weekly basis in each course in which they are enrolled. This participation can take the form of attendance at an on-site course, submitting an assignment, exam, and/or forum response, emailing the faculty of the course, and viewing or reading required course materials. Simply logging into a course online and viewing the timeline or announcements does NOT qualify as weekly participation. The Registrar’s Office will audit online participation on a weekly basis. If a student does not meet the participation requirements outlined above for any course for a period longer than fourteen calendar days, the Registrar’s Office will contact the student with a reminder to participate immediately. If inactivity continues for three additional calendar days, the University will assume the student has discontinued the course(s) and will administratively withdraw him/her from the course(s) as of the seventeenth calendar day of inactivity. The student will remain accountable for any outstanding loans used to fund the program participation. Reinstatement into the course after the administrative withdrawal is subject to due process through an appeal to the Registrar’s Office.

Tardiness Policy

Because of the importance of active classroom participation and the intensity of the graduate program, students are expected to be in class promptly at the beginning of each class period. Attendance is taken at that time and students who are not present for roll call may be marked absent. Tardiness may result in consequences at the discretion of the faculty member. Students are also expected to be in class through the complete class period.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

Student Advising

Academic advising is a crucial component of the academic experience. Effective advising is the responsibility of both the faculty and students, and is designed to provide the necessary information and tools for all students. This advising will allow students to assume responsibility for developing education and career plans that are compatible with their goals and with meeting institutional degree requirements.

Advising can occur in both formal and informal settings, and can take place in any format or medium. This includes email correspondence, phone conversations, or in-person meetings. Documentation of formal advising is maintained in a student’s academic file. While formal advising sessions are typically scheduled at least once each semester, academic advising by PDs, CTD/EDTs, and faculty for all incoming and continuing students is available at any point. Students will be introduced to their faculty advisor during new student orientation.

Advising responsibilities primarily fall to the Program Directors (PDs), Concentration Track Directors (CTDs)/Elective Track Directors, and faculty advisors who engage in academic advising and career counseling of students as part of their academic responsibilities. Teaching faculty and those serving as adjunct faculty may also advise students within the functions of their responsibilities. Ad hoc advising on various institutional and degree requirements are assumed by other university academic officials, as required.

Exams and Assignments

All exams and assignments required of the student will be identified and explained by the faculty and included in course syllabi. The syllabi are available from the University and are provided via Canvas prior to the beginning of a semester.
Assignments are submitted directly to the faculty via Canvas. Participation in discussion forums, chats, team activities, presentations, etc., may also be required as part of the assessment process.

Students should always maintain a copy of every assignment (non-examination) or completed form submitted to the University in case of lost communication or un-readable files (these should be kept until after program completion). Ultimately, the student is responsible for the receipt of all assignments until the grade has been posted to the student's transcript.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference "Program Information" section of this Handbook.

**Late Assignments or Exams**

Students are responsible for tracking their own course deliverable deadlines and are advised to utilize the resources provided by the faculty member to identify their due dates for all courses. Should a student run into difficulty meeting a particular deadline, it is his/her responsibility to be proactive in communicating his or her situation to the respective faculty member. The faculty member has the authority to grant or deny extensions to due dates, and/or to deduct points for late assignments. Faculty will determine the grade deduction, if any, that will be applied to the assessment.

If assignments are not submitted by the grade deadline in a course without an approved Incomplete status, the faculty member will post the assignment grade as zero points and the final grade that was earned by the student based on total points received in the course.

**Coursework and Exam Feedback**

Course and assignment feedback is provided from faculty directly to students via the Canvas learning management system. Faculty should post on their syllabus expectations regarding responding to student correspondence. In general, it is expected that faculty would respond to email correspondence from students within three business days of receipt. Grades for assignments submitted throughout the semester should be posted within two weeks of the submission date, unless otherwise noted in the course syllabus, to provide students with feedback that will guide them through the remainder of the course and their later assignments.

Canvas exam feedback guidelines are determined by the faculty member when setting up the exam. To protect the security of non-Canvas exams, graded exams may only be reviewed in the presence of faculty or the Registrar’s Office. If a student wishes to review one or more exams, he or she may request to do so in the faculty’s or Registrar’s Office’s presence while on-site at the University.

**Proctors and Proctoring for Limited-residency Programs**

ProctorU is used by Rocky Mountain University of Health Professions (RMUoHP) post-professional degree programs to ensure security with test-taking. When an examination is required to be proctored, it is taken at the student’s home geographic location and monitored remotely using ProctorU. The proctor system is an integral part of the academic process and is critical to academic integrity. Any violations of the proctor agreement or process will be considered a violation of the RMUoHP Honor Code and the student will be subject to immediate dismissal.

All RMUoHP post-professional degree program course and qualifying exams are taken electronically via the learning management system (LMS), Canvas. Exams may or may not be proctored in any given course, at the discretion of faculty, and students may or may not have a proctored exam in any given semester. For all proctored exams, the online proctoring service, ProctorU, is utilized. It is recommended that students register with ProctorU at least one month prior to their first proctored exam.

A video on ProctorU is available at http://www.proctoru.com/howitworks.php. As exams become available, students log on to ProctorU and click Schedule an Exam. ProctorU allows students to take an exam on demand or by appointment. All appointments should be made at least three days in advance. To make an appointment,
students log in, click on the “new exam” link and select the exam, date, and time desired. The pricing schedule is found on the RMUoHP website at https://rm.edu/academic-affairs/proctor-information/.

RMUoHP generates exam completion reports from ProctorU and faculty may review exams via the LMS. If a proctor perceives cheating, a profile containing evidence (e.g., video, screen shots, descriptions) of the alleged cheating is provided to the University and faculty for evaluation.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

Grades

Individual Course Grade Requirements

Students in all programs, with exception of the entry-level Doctor of Physical Therapy (DPT) program*, are required to achieve a minimum of a "B-" grade, which equates to a numerical value of eighty percent (2.7 on a 4.0 scale) for any individual course. Grades below eighty percent are considered failing grades, and courses must be remediated or repeated to continue in the program. The student must make the request to remediate or repeat the course to the Program Director (PD).

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

Grading Policies and Grading Scale

When all requirements are fulfilled for each course in which the student is officially registered, students receive a course grade. This grade is the faculty’s evaluation of the student’s understanding and performance as related to the stated objectives of the class. Final letter grades are entered on a student’s official academic record and numeric values are used to compute the student’s grade point average (GPA). Only grades earned at RMUoHP are used to determine GPA.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.
Course Grade Designations

**AW (Administrative Withdrawal)**

An “AW” grade is assigned when a student fails to meet University attendance policies, fails to meet the requirements of a contract written to resolve an incomplete grade, or withdraws from a course after the 8th week (midpoint) of a semester. An “AW” affects the GPA, but may be replaced with a grade by repeating the course successfully. Refunds of fees are not typically provided.

A student may not carry more than two “AW” grades in the MSHS, tDPT, or post-professional OTD programs; three “AW” grades in the DNP/FNP and SLPD programs; or four “AW” grades in the PhD program at any given time.

**AF (Administrative Failure)**

An “AF” grade is assigned when a student is dismissed from the University (refer to Dismissal Policy). An AF affects the GPA adversely. Refunds of fees are not typically provided.

**I (Incomplete)**

An “I” grade is assigned when extenuating non-academic circumstances (i.e., serious illness or other unavoidable circumstances) prevent the student from completing the course requirements within the regular timeframe of the course. If the faculty member concurs with the student that extenuating circumstances are present, the student shall fill out an Incomplete Grade Contract that is signed by the faculty member and program director (PD). The Incomplete Grade Contract indicates the course requirements that must be completed and their due dates, to remove the “I” grade. The time for completion of incomplete assignments is determined by the faculty member and may not exceed the end date of the subsequent semester. The contract is not official until the student, faculty member, and the PD have given signed approval. This contract will remain in the student’s University file. The Incomplete Contract must be filed with the Registrar’s Office and the requisite fee must be paid before the “I” grade is posted. The fee covers the administrative costs and required additional support from the faculty and PD. When all course requirements are completed as contracted, the faculty member will notify the Registrar’s Office of the grade, and the Registrar’s Office will update the student’s record to reflect the final grade earned.

Should the student fail to meet the requirements of the contract, the grade the student receives in the course will automatically change from an Incomplete to an Administrative Withdrawal (AW).

A student may not carry more than two “I” grades in the MSHS, DMSc, tDPT, or post-professional OTD programs; three “I” grades in the DNP and SLPD programs; or four “I” grades in the PhD program at any given time.

**IP (In Progress)**

An “IP” grade is assigned when a student completes all required coursework but, upon direction of the faculty, needs to remediate that work in order to pass the course. An “IP” must be removed by the end date of the subsequent semester or the course grade will be calculated from the previously graded work. An IP Grade Contract must be completed by the faculty member and signed by the student and PD. This contract will remain in the student’s University file. The In Progress Grade Contract must be filed with the Registrar’s Office and the requisite fee must be paid before the “IP” grade is posted. The fee covers the administrative costs and required additional support from the faculty and PD. This fee must be paid before the “IP” is posted on the student’s transcript.

When all course requirements are successfully completed as contracted, the faculty member will notify the Registrar’s Office of the grade, and the Registrar’s Office will close the In Progress Grade Contract to indicate the final grade earned. The final grade will be determined by the faculty based upon multiple factors including, but not limited to, the degree of improvement in the work, the extra time allowed for work completion, and the level of effort involved.
Should the student fail to meet the requirements of the contract, the grade the student receives in the course will automatically change to the failing grade that would have been assessed prior to the remediation.

A student may not carry more than two “IP” grades in the MSHS, tDPT, or post-professional OTD programs; three “IP” grades in the DNP and SLPD programs; or four “IP” grades in the PhD program at any given time.

**AE (Academic Extension)**

An “AE” grade is assigned when the due date for coursework in a given course extends beyond the end of the semester. This extension is university-initiated and applies to the entire class. Thus, no form, fee or penalty is associated with this grade designation.

**W (Withdrawal)**

A “W” grade is assigned when a student withdraws from a course after the designated Add/Drop date, but by the end of the 8th week (midpoint) of the semester. The “W” grade does not affect the GPA. Any course for which a “W” is assigned must be repeated if the student wishes to continue in the program. In order to request a withdrawal from a course, the student must complete the “Add-Drop Form” which is found on the RMUoHP website at [http://rm.edu/academic-affairs/general-student-information-forms/](http://rm.edu/academic-affairs/general-student-information-forms/) and submit it to the Registrar’s Office as per the instructions on the form.

In some extenuating circumstances a “W” grade may be awarded after the 8th week (midpoint) of the semester. The process for these requests includes the following steps:

The student submits a letter or email to the PD and Registrar’s Office stating the extenuating circumstances for the Withdrawal request.

1. After review (with the Provost input), the PD rules on the request;
2. If approved, the student receives a “W” grade for the course. A “W” grade has no effect on the student’s GPA.

Students may be eligible for tuition refunds in accordance with the University refund policy as described in the student’s enrollment agreement.

**TC (Transfer Credit)**

A “TC” grade is assigned when the student receives transfer credit allowance from an external institution. A “TC” grade has no effect on the GPA. The policy on transfer credit is located in the Transfer of Credits section of this handbook.

**NS (Not Submitted)**

An “NS” grade is assigned when the student has submitted all required coursework and the final grade is pending from the faculty member. This has no effect on the GPA.

**R (Repeat of Course)**

An “R” grade is assigned when the student has repeated a course for graded credit. Official enrollment in the course is required with payment of appropriate tuition and fees. Upon successful completion of the course, the previous grade will be changed to an “R,” which does not affect the student’s GPA for academic purposes; it will be included for determination of Satisfactory Academic Progress (SAP; see Satisfactory Academic Progress section). Only the “new grade” posted as the final grade will be used to compute the GPA as presented on the student’s transcript. A course can only be repeated once. Entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, should reference program handbooks for programmatic requirements regarding readmission to repeat a course.
**AC (Audit Course)**

An “AC” grade is assigned when the student takes the course for ungraded credit. An “AC” has no effect on the GPA. This is an official classification, but the student does not receive a grade or credit and does not submit coursework.

**Grade Reports**

All course grades are available for student review via the University’s secure student portal at https://rmuohpselfservice.topschoollive.com/login. Additionally, for web-based courses, course grades are also available on the University’s learning management system. Authorized University personnel may additionally communicate course grades by mail, fax, or email to authorized individuals. Faculty and Program Directors (PDs) may unofficially notify students of course grades in writing (mail, fax or email).

Grades will not be given over the phone. The Registrar’s Office will communicate course grades to students via email or written notice. Students who need official copies of their transcript should request these by completing the Transcript Request Form that may be downloaded from the University website.

**Course Grade Changes**

Student grades are considered final when recorded by the Registrar’s Office. Once a final grade is recorded by the Registrar’s Office, it may not be changed except to correct the permanent record when a calculation error has been made; to insert a grade when the requirements are met for completing the course in which an “I” or “IP” grade designation has been received; or upon direction of the Academic Appeals Committee. When such corrections need to be made, a Grade Change Form must be completed by the course faculty member and sent to the Registrar’s Office. All Grade Change Forms must be submitted prior to the end of the subsequent semester.

Academic grievances may result despite the most well intended efforts of both students and the faculty. Good communication between faculty and students may minimize disputes. If disagreements do occur, it is University policy to provide a mechanism whereby a student may formally appeal faculty decisions. The first step in resolving a grievance should occur between the student and the course instructor. These parties are the most familiar with the stated objectives of the course and the work completed. The role of the course instructor is to work through differences with his or her students in a responsible, sensitive, and fair-minded manner. This may be best accomplished through an informal discussion of the issues involved. If a complaint or dispute is not satisfactorily resolved, the student may appeal in writing to his or her PD or, in the event the PD was the course faculty member, to the Associate Vice President of Academic Affairs (AVPAA) or Provost. The student should initiate academic grievances within fifteen (15) days of receiving the given course grade. The process to file an academic grievance is found under the “University Appeals Process” section of this handbook.

**University Student Status**

The following designations will be used to represent the student’s University status (if other than Enrolled):

**Table 3. University Student Statuses**

<table>
<thead>
<tr>
<th>University Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>UW</td>
<td>University Withdrawal</td>
</tr>
<tr>
<td>TW</td>
<td>Temporary Withdrawal</td>
</tr>
<tr>
<td>AP</td>
<td>Academic Probation</td>
</tr>
<tr>
<td>AS</td>
<td>Academic Suspension</td>
</tr>
</tbody>
</table>
TW (Temporary Withdrawal)

Temporary Withdrawal is the status applied when a student withdraws from the University but indicates a desire to reenroll in a subsequent program cohort at the time of withdrawal. The student will continue his or her studies with a different cohort of students, in the same academic program. The status of TW is only for two years. Once two years have lapsed without the student reenrolling, his or her status will be changed to UW and the policy for the UW status applies. This request is submitted by the student on the Withdrawal form, available on the University website.

Students in the TW status are responsible for all the conditions identified in their original letter before reenrollment. Additionally, the student is also responsible for attendance and completion of all courses in the curriculum, regardless of where they occur. A request for temporary withdrawal during the dissertation, scholarly project, or thesis phase must be based on extenuating circumstances and such request must be approved by the Provost.

UW (University Withdrawal)

Students considering withdrawing from the University once studies have commenced should talk with their PD to explore options and available assistance. If a decision is made to withdraw, a completed Withdrawal form must be submitted to the Registrar’s Office who will seek approval from the PD and Provost. The student will receive written notification of his or her official status and any terms/conditions necessary for reinstatement.

Withdrawal from the University implies there is no intent to return within two years. If the student desires to return to the University under UW status, the student must reapply to the University, completing a new application and personal statement to address his or her desire to continue his or her studies and indicate what has changed to permit his or her successful completion. If the references originally submitted are more than three years old or no longer on file (per the student’s waiver of rights to review recommendations), new references must be submitted. The student is responsible for any admissions requirements in effect at the time of re-application.

Additionally, it should not be assumed that all University credits will be accepted towards the student’s approved reenrollment. A determination of the number of RMUoHP credits allowed to transfer will be made by the PD and Provost based on currency of the course, curricular changes, faculty changes, and program goals. The student is responsible for enrollment in all of the program’s courses, regardless of where the course occurs in the curriculum. If the student desires to reenroll in the same program more than three years after withdrawal, it is assumed the student will begin with Semester 1 of the program, regardless of previous work completed (unless previous arrangements have been made with the Provost).

AP (Academic Probation)*

All University students are required to meet specific academic standards. When those academic standards are met, they are considered in Good Standing status. Failure to meet these standards will result in a student being placed on Academic Probation.

A student is placed on Academic Probation if one of the following occurs:

- Failure to maintain the minimum required grade point average (GPA) of 3.0 for a given semester and/or a minimum cumulative grade point average (CGPA) of 3.0.
- In the limited-residency programs, accumulation of maximum allowed grades of Incomplete (I), In Progress (IP), and/or Administrative Withdrawals (AW) on the official transcript.
  - Students in the MSHS, TDPT, or post-professional OTD programs, may not carry more than two I grades, two IP grades, or two AW grades at any given time.
- Students in the SLPD and DNP programs may not carry more than three I grades, three IP grades, or three AW grades at any given time.
- Students in the PhD program may not carry more than four I grades, four IP grades, or four AW grades at any given time.

- In the entry-level DPT program:
  - Attainment of a grade of C+ in a course or;
  - A clinical education course grade that is not passing such as Incomplete or In Progress.

- In the MPAS program:
  - Acquiring an average examination score of less than 75% in a single didactic course;
  - Failing four (4) or more formal assessments across all courses in a single semester;
  - Receiving a mark of “Unacceptable” on the Preceptor Evaluation of Student;
  - Failing End of Rotation written examinations.

If placed on Academic Probation for reasons related to GPA or CGPA, the student must achieve a semester GPA of 3.0 or higher in the subsequent semester, and a CGPA of 3.0 or higher within the second semester after being placed on Academic Probation. If one or both of those requirements are not met, the student will be dismissed.

For limited-residency programs, if the student is placed on Academic Probation for reasons related to accumulation of I, IP, or AW grades on their official transcript, the student will be required to meet requirements in those areas within one semester after being placed on Academic Probation. If the student does not meet requirements in those areas within one semester after being placed on Academic Probation, the student will be dismissed.

For the entry-level DPT, students placed on Academic Probation due to the attainment of a grade of C+ in a course will return to Good Standing status after the subsequent semester if no additional C+ grades are received. Students in the entry-level DPT program are not allowed to be on academic probation for more than two semesters in an academic career. Failure to return to academic good standing after the second semester of probation will result in dismissal from the program. Refer to the DPT Program Handbook for all programmatic policies regarding academic progression.

For the MPAS program, students will return to Good Standing status after the subsequent semester if they refrain from demonstrating any of the academic deficiencies listed above during the probationary semester. Failure to return to academic Good Standing will result in dismissal from the program. Refer to the MPAS program policies for all policies regarding academic progression.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

**AS (Academic Suspension)**

Academic suspension is a temporary disciplinary status that prohibits the student from participating in any University-related activities or making progress towards any degree requirements. The student must complete the terms of academic suspension before being permitted to continue as an active student.

**AD (Academic Dismissal)**

Academic dismissal terminates graduate student status and prohibits further participation in graduate studies at RMUoHP until a petition for readmission is reviewed and granted. Academic dismissal may result if a student

- Fails to return to Good Standing after Academic Probation, as per the requirements listed in the “Academic Probation” section.
• Receives an “unsatisfactory” rating in a review by the PD and Provost and is unable or unwilling to comply with the conditions of continuance as outlined by the PD and/or Provost.
• Fails to make satisfactory progress toward a graduate degree as defined by the University.
• Twice fails a qualifying examination.
• Fails the final dissertation defense.
• Violates the University's Standards of Conduct or Code of Academic Integrity.
• Exceeds the established time limit for completion of coursework and/or the thesis, scholarly project, or dissertation (three years for the MSHS and IDPT; four years for the OTD, DPT, SLPD, and DNP (post-master’s); five years for the MPAS, six years for the FNP and, eight years for the PhD) without a University-approved extension.

When a student has been placed on academic suspension or has been academically dismissed, he or she has the right to appeal the status decision and apply for reinstatement to the University through an academic appeal. This appeal process is outlined in the “University Appeals Process” section of this handbook.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

Missing an Entire Semester

The student is responsible for enrolling in all courses of the missed semester. If the semester’s courses or specific course content has changed from the missed semester, the student is responsible for making up all courses, even if the courses are not in the former sequence.

Readmittance Following Suspension or Dismissal

Students who have been suspended may apply for readmittance to the University after at least one semester following the term in which they were suspended, according to the readmission policy.

Students who have been academically dismissed may apply for readmittance to RMUoHP after one academic year and after satisfying any criteria for consideration for readmittance. Academic deficiencies are considered Incomplete (I) or In Progress (IP) designations or grades below acceptable program thresholds. Students must maintain at least a B- (80%).

Students readmitted following academic suspension or academic dismissal are considered to be on probation but must bring their GPA, CGPA and/or Rate of Progress (RoP) above the probation range by the end of the first semester after being readmitted. If it is mathematically impossible for the student to improve the GPA, CGPA or RoP above the probation range by the end of the first semester after readmittance or if, in the judgment of the readmittance committee, it is highly improbable for the student to improve above the probation range, the student will not be readmitted.

Satisfactory Academic Progress

To be eligible to receive federal financial aid, students must maintain Satisfactory Academic Progress (SAP) as outlined below. An audit is completed after every semester to ensure students are meeting SAP standards.

Standards

Cumulative Grade Point Average

Students must maintain a cumulative grade point average (CGPA) of 3.0 or higher. After the grades have been posted for each semester, the PD and Registrar’s Office will review the student’s record to determine if the student is in compliance. The GPA will be calculated only for the program of study in which the student is
matriculated. Courses taken in a prior RMUoHP program will not be used in the calculations except in the case of transfer credit.

**Rate of Progress**

Students must successfully complete 66.67% of the credits attempted in each semester to be considered to be making satisfactory academic progress. This is known as Rate of Progress (RoP). Credits attempted are defined as those credits for which students are enrolled at the end of the add/drop period of a semester. Grade designations that do not represent successful completion include C+ (in all programs but Entry-level Doctor of Physical Therapy), C, AW, F, I, IP, R, and W. Each student’s RoP is calculated by dividing the total credit hours of these non-progress designations by the total credit hours attempted in the semester and subtracting the total from 100. The resulting RoP must be 66.67% or higher to be eligible for federal financial aid. As with the determination of CGPA, the rate of progress will be reviewed at the end of each semester after grades have been posted to determine if the student is progressing satisfactorily.

**Maximum Timeframes for Degree Program Completion**

Timeframes for degree completion are established to ensure that students maintain current knowledge while successfully completing their educational program. All degree completion requirements for Rocky Mountain University of Health Professions (RMUoHP) programs must be completed within the timeframes listed below.

<table>
<thead>
<tr>
<th>Program</th>
<th>Years from Start of Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctor of Medical Science</td>
<td>4</td>
</tr>
<tr>
<td>Family Nurse Practitioner Certificate (FNPC)</td>
<td>4</td>
</tr>
<tr>
<td>Master of Science in Health Science (MSHS)</td>
<td>4</td>
</tr>
<tr>
<td>Master of Science in Speech-Language Pathology (MS-SLP)</td>
<td>4</td>
</tr>
<tr>
<td>Post-Master’s Doctor of Nursing Practice (DNP)</td>
<td>4</td>
</tr>
<tr>
<td>Post-Master’s Psychiatric Mental Health Nurse Practitioner Certificate</td>
<td>4</td>
</tr>
<tr>
<td>Transitional Doctor of Physical Therapy (tDPT)</td>
<td>4</td>
</tr>
<tr>
<td>Doctor of Speech-Language Pathology (SLPD)</td>
<td>5</td>
</tr>
<tr>
<td>Doctor of Occupational Therapy (OTD)</td>
<td>5</td>
</tr>
<tr>
<td>Doctor of Physical Therapy (DPT)</td>
<td>5</td>
</tr>
<tr>
<td>Master of Physician Assistant Studies (MPAS)</td>
<td>5</td>
</tr>
<tr>
<td>Post-Baccalaureate Doctor of Nursing Practice (Family Nurse Practitioner, FNP)</td>
<td>6</td>
</tr>
<tr>
<td>Doctor of Philosophy (PhD)</td>
<td>8</td>
</tr>
</tbody>
</table>

Maximum timeframe for degree completion is measured from the student’s first day in the program. This deadline is not affected by periods when the student is not enrolled in courses or is ineligible to receive federal financial aid.
SAP Statuses

Financial Aid Warning

A student will be placed in Financial Aid Warning the first time they do not meet the SAP standards listed above. This status will remain in effect through the subsequent semester in which they did not meet the SAP standards. The student will continue to be eligible to receive federal financial aid while in this status. A student may only be placed in this status one time. If a student is removed from Financial Aid Warning, and then does not meet SAP standards again, they will be placed in Financial Aid Suspension.

Financial Aid Suspension:

Any student who has previously been in Financial Aid Warning who does not meet the SAP standards again will be placed on Financial Aid Suspension status. Students in this status are ineligible to receive federal financial aid. This status may be appealed.

Financial Aid Probation

If a student successfully appeals their Financial Aid Suspension, they will be placed in Financial Aid Probation status for one semester. The student will be eligible to receive federal financial aid while in this status. If they do not meet the SAP standards after the end of that semester, they will be placed into Financial Aid Suspension.

Academic Plan

An Academic Plan may be required to accompany the SAP appeal when a student is not able to meet SAP within one semester.

Degree Conferral and Commencement Ceremony

Degree Conferral

A degree is conferred when the student has completed all academic, financial, and graduation requirements for the course of study as outlined in the University Handbook and with approval of the Board of Trustees (BoT). All students must complete all program curriculum requirements with a minimum cumulative grade point average of 3.0. In addition: Doctor of Nursing Practice (DNP and FNP) students must additionally complete and successfully defend the scholarly project (which will also require intermediate steps such as proposal defense, scholarly project advisor approval, and submission of the bound copy of the scholarly project). Doctor of Philosophy (PhD), Doctor of Medical Science (DMSc), and Doctor of Speech-Language Pathology (SLPD) degree students must pass comprehensive qualifying exams, complete practicum hours (as applicable), and satisfy all the steps in the dissertation process (committee formation, proposal development and defense, IRB approval) leading to the final defense and subsequent submission and acceptance of the bound dissertation. Doctor of Nursing Practice (DNP) and Doctor of Speech-Language Pathology (SLPD) students must additionally complete and successfully defend the scholarly/capstone project (which will also require intermediate steps such as proposal defense, capstone advisor approval, IRB approval, and submission of the bound copy of the scholarly/capstone project). Master of Science in Health Science (MSHS) students must additionally complete the Thesis or Capstone and satisfy all steps in each respective process.

Students must apply for graduation by completing the graduation application, which is on the University website. The degrees are usually conferred as the last day of the semester, as stated in the academic calendar which is also published on the same page of the website. The completed form, with required signature, must be submitted to the Registrar's Office at least 60 days prior to the end of a given semester. A graduation fee of $75 for all degree programs is due before the application can be processed. As a reminder, the Registrar's Office will contact all potentially eligible students 75 days prior to the end of a given semester. Should a student not complete degree requirements in the semester in which they have submitted an application for graduation, they must reapply in the semester in which degree requirements are met.
After the application is submitted, the Registrar’s Office conducts an audit of the academic records and the University finance office audits the financial records. Students who clear the academic audit and desire their diplomas/transcripts released upon degree conferral must be cleared by the financial audit. Recommendations by the Registrar’s Office for degree conferral require sequential approval of the respective Program Director, Provost, and President, who recommends conferral to the Board of Trustees (BoT) Chair. The President officially confers all degrees awarded by RMUoHP following BoT approval. The graduate can begin using the credentials once notified by the Registrar’s Office. The following will occur once the Registrar’s Office is notified of the BoT action: 1) the Registrar’s Office will notify the student of approval via email or other written format, 2) the diploma will be ordered, and 3) the diploma will be mailed to the student with a copy of the final official transcript. Those students who have completed all academic requirements and have had their degree conferred, but who also have outstanding financial obligations to the University, will not receive official transcripts and diplomas until cleared by the University finance office following financial clearance.

Dates and timelines for graduation and conferral of degrees

RMUoHP uses a trimester system. Start and end dates of each semester will be outlined in the academic calendar. A student wishing to apply for graduation during one of these semesters must submit an application at least 60 days prior to the end of the semester. All degree requirements must be completed by the last day of the semester to fulfill the academic portion of the graduation audit and to start the process of degree conferral. Recommendation for graduation will be submitted to the BoT Chair within three weeks after the last day of the semester. As a reminder, the Registrar’s Office will contact all potentially eligible students 75 days prior to the end of a given semester.

Commencement Ceremony

The University holds two commencement ceremonies each year. They are held in August and December. Those eligible to participate in the August Commencement ceremony on a given year include the following*:  
- Graduates who have been granted their degrees by the RMUoHP Board of Trustees within the past 18 months.
- Transitional Doctor of Physical Therapy (tDPT) and Doctor of Occupational Therapy (OTD), students who are in their final semester of the program by the commencement registration deadline (May 31st), hold the minimum required GPA of 3.00, and have received approval from their Program Directors (PD(s)) to attend commencement.
- Doctor of Speech-Language Pathology (SLPD), Doctor of Nursing Practice (DNP, FNP), Doctor of Philosophy (PhD), and Master of Science in Health Science (MSHS) students who have successfully defended their scholarly projects, dissertations, or theses respectively by July 1st, and have received approval from their PD(s) to attend commencement.
- Master of Physician Assistant Studies (MPAS) students who have successfully completed all requirements of the program and have been approved by the program director to be eligible for graduation (August 1).
- Those eligible to participate in the December Commencement ceremony on a given year include the following*:  
- Graduates who have been granted their degrees by the RMUoHP Board of Trustees within the past 18 months.
- Transitional Doctor of Physical Therapy (tDPT) and Doctor of Occupational Therapy (OTD), students who are in their final semester of the program by the commencement registration deadline (September 30th), hold the minimum required GPA of 3.00, and have received approval from their Program Directors (PD(s)) to attend commencement.
- Doctor of Speech-Language Pathology (SLPD), Doctor of Nursing Practice (DNP, FNP), Doctor of Philosophy (PhD), and Master of Science in Health Science (MSHS) students who have successfully defended their scholarly projects, dissertations, or theses respectively by November 1st, and have received approval from their PD(s) to attend commencement.
• Master of Physician Assistant Studies (MPAS) students who have successfully completed all requirements of the program and have been approved by the program director to be eligible for graduation.

*Students who register for commencement and order regalia assume the risk of not being permitted to attend the ceremony if a poor or incomplete grade is posted, or if all financial obligations to the University are not current. Entry-level Doctor of Physical Therapy (DPT) students are not eligible to participate in the August Commencement Ceremony.

Student Records

The Family Educational Rights and Privacy Act of 1974 (FERPA)

FERPA was designated to protect the privacy of educational records. FERPA affords students certain rights with respect to their educational records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. A student should submit to the Registrar’s Office and Provost, written requests that identify the record(s) he or she wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request an amendment of the student’s education records that the student believes is inaccurate or misleading. A student may ask the University to amend a record he or she believes is inaccurate or misleading. The student should write the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to University officials with legitimate educational interests. A University official is a person employed by the University in an administrative, supervisory, academic research, or support staff position; a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another University official in performing his or her tasks. A University official has a legitimate educational interest if the official needs to review an education record to fulfill his or her professional responsibility. The following is considered “Directory Information” at RMUoHP and will be made available to the general public unless the student notifies the Registrar’s Office in person or in writing:
   - Student’s name
   - telephone numbers
   - photograph
   - all addresses
   - e-mail address
   - major
   - date(s) of enrollment and graduation

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by RMUoHP to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605.
RMUoHP complies with the Family Educational Rights and Privacy Act (FERPA) of 1974 and its amendments. The rights of students accorded under this law are as follows:

**Student Record Life**

A student’s enrollment agreement, grades and university transcripts are permanently stored in the student’s record. All student records are maintained according to the university “Student Record Retention Schedule” which can be obtained by contacting the Registrar’s Office. IRB-related materials are destroyed three years following graduation per federal guidelines.

**University Policy Regarding Student Information**

RMUoHP has designated the following as “directory information” that the University may disclose in the student handbook or on the University web site unless the student notifies the Registrar’s Office using the Authorization to Withhold Directory Information Form, which is available from the University website:

- student name
- photograph
- telephone numbers
- all addresses
- e-mail address
- program or specialization
- date(s) of enrollment and graduation

**Student Records Available for Inspection**

Current and former students of RMUoHP have the right to inspect information contained in their official educational records as outlined in FERPA. These records include such information as application for admission, academic grades, college transcripts, financial aid, and other records and materials as appropriate and available. A written request to see information within a student’s record must be submitted to the Registrar’s Office.

**Student Records Unavailable for Inspection**

Students *may not* inspect their confidential letters and letters of recommendation associated with admissions or documents to which they have waived their rights of inspection and review, or educational records containing information about other students.

**Note:** A student has the right to file a complaint with the Family Policy and Regulations Office, U.S. Department of Education, Washington, D.C. 20202, if in the perception of the student, RMUoHP has violated his or her rights under FERPA.

**Academic Freedom**

Academic Freedom is a traditional and highly regarded principle of professional education. It drives the intellectual community to serve with integrity and responsibility to accomplish the Mission of the University. Academic freedom means that:

- Faculty members are entitled to freedom in the classroom to introduce, discuss and pursue their subject matter, but, they should be cautious about introducing material that is controversial and without evidence; and Faculty are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution; and
- Academic Freedom is not absolute and is subject to reasonable and proper restriction as it is constructed for the common good rather than the advantages of a single individual; and
• Academic freedom indicates that both faculty and students can engage in debate without fear of censorship or retaliation. It establishes a right for faculty to remain true to his or her pedagogical philosophy and intellectual commitments and gives faculty substantial latitude in deciding how to design and instruct courses. In reference to the learning environment, academic freedom provides the opportunity for students and faculty to critically discuss and express their views in speech, writing and through electronic communications both on and off campus without fear of sanction unless the manner of expression impairs the rights of others or in view of faculty demonstrate they are unprofessional, incompetent or dishonest in regard to discipline or field of expertise. Academic freedom gives both faculty and students the right to study and conduct research on topics they choose and draw conclusions consistent with their research without restriction.

Political, religious, or philosophical beliefs are not imposed on students or faculty and are protected for reprisals of disagreeing with administrative policies or proposals.

(Adapted from the 1940 Statement of Principles on Academic Freedom and Tenure of the American Association of University Professors, from experts of the 2006 Statement from the Board of Directors AACU and Inside Higher Education 2010 and from the 1994 Statement of Principles of Academic Freedom and Tenure adopted by the American Association of University Professors).

**Student Academic Integrity**

The University is committed to maintaining an intellectual and ethical environment based on the principles of academic integrity. In this endeavor, academic integrity is essential to the success of the University and its community. Violations of academic honesty threaten the integrity of learning and scholarship and constitute serious offenses toward the entire academic community.

Students are expected to adhere both to their professional Code of Ethics and to the University’s ideals and values of truth, integrity, and personal authenticity. It is the responsibility of the student to refrain from infractions of academic integrity, conduct that may lead to suspicion of such infractions, and conduct that aids others in such infractions. It is the responsibility of the faculty, administration, and students to establish and maintain an environment that supports academic integrity.

Every student has an obligation to act with honesty and integrity, and to respect the rights of the University, its students, faculty and staff in completing all academic assignments. Academic dishonesty includes cheating, plagiarism, and facilitating infractions with respect to examinations, the proctor process, course assignments, alteration of records, computer fraud, or illegal possession of examinations. Academic dishonesty also includes being aware of another student’s dishonesty and failing to report awareness of the dishonest student’s behavior.

**Definitions**

*Cheating*¹

Cheating includes using or attempting to use in any academic exercise materials, information, study aids, or electronic data that the student knows or should know is unauthorized.

*Plagiarism*¹

Plagiarism is representing the words or ideas of another as one’s own. Honesty requires that any ideas or materials taken from another source for either written or oral use be fully acknowledged. The language or ideas taken from another may include but are not limited to isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches, or the writings of other students. The offering of materials assembled or collected by others in the form of projects or collections without acknowledgement also is considered plagiarism. Any student who fails to give credit for ideas or materials taken from another source, including anything downloaded from an online source without permission, is guilty of plagiarism.
Facilitating Infractions of Academic Integrity

Facilitating is helping or attempting to help another to commit an infraction of academic integrity, where one knows or should know that through one’s acts or omissions such an infraction may occur.

Examples of Violations of Academic Integrity Policy:

A student may be found to have violated the University’s Honor Code if, during or in connection with any academic project, performance, or evaluation, he or she

a) Practices any form of academic deceit;

b) Refers to materials or sources or employs devices (e.g. audio records, crib sheets, books, software, web sites, other) not authorized by the faculty member for use during the academic performance assessment process;

c) Possesses, buys, sells, obtains, or uses, without appropriate authorization, a copy of any materials intended to be used as an instrument of academic performance evaluation in advance of its administration;

d) Acts as a substitute for another person in any academic performance evaluation process;

e) Uses a substitute in any academic assessment process;

f) Depends on the aid of others to the extent that the work is not representative of the student’s abilities, knowing or having good reason to believe that this aid is not authorized by the faculty member;

g) Provides inappropriate aid to another person, knowing or having good reason to believe that the aid is not authorized by the faculty member;

h) Engages in plagiarism, as defined above;

i) Permits work to be submitted by another person without the faculty members’ authorization;

j) Attempts to influence or change any academic evaluation or record for reasons having no relevance to class performance; or violates the proctor agreement.

Penalties for Violations

Students have been given notice of this rule by virtue of its publication. All students sign on admission that they have read and understand information contained in the University Handbook, which includes information regarding academic integrity. Regardless of whether a student has actually read this rule, a student is charged with the knowledge thereof. Students are not excused from this policy due to ignorance. In general, the minimum penalty for any violation of this policy is a failing grade in the class. The Provost may recommend lesser penalties as deemed warranted. The maximum penalty for violations of this policy will be academic dismissal.

Procedure

Any member of the University community may bring to the attention of a faculty member, PD, or University administrator evidence in support of an allegation that a student has violated this policy.

Once an allegation has been made, the procedure below will be followed:

1. The allegation and all supporting evidence will be directed to the Provost’s Office. The Provost will then oversee the investigation process and determine if a violation has occurred. The Provost may delegate the investigation of this allegation as deemed appropriate.

2. If it is deemed that a violation has occurred, the student will be officially notified of the charge, as well as the evidence upon which that charge is based. Each student is afforded his or her due rights and process when a complaint has been filed. The student will be given 15 days to respond to that charge. The student should respond to the charge in writing, and may provide any additional documentation or evidence necessary within that response.

3. After reviewing all evidence, the Provost’s Office will make a final determination regarding the charge.

4. If it is deemed that the student is guilty of violating the academic integrity policy, he/she will be assessed a penalty in accordance with the guidelines under the “Penalties of Academic Dishonesty” section above.

5. The documentation related to the violation and penalty will remain as a record in the student's file.
The student may appeal these actions in accordance with the “University Appeals” section of the handbook.

1 Definitions were adapted from a model code of academic integrity found in School Law Journal; Vol. 55, Number 8, 1978.

**Student Conduct and Behavior**

RMUoHP strictly adheres to its established policies of conduct and behavior of students, faculty, and administration. These policies were established to maintain an atmosphere conducive to the effective education of students. It is recognized that administrators, PDs, faculty, proctors, research mentors, practicum mentors, and students must function as a partnership to be an effective community of scholars. In that the student body of this institution represents professionals already committed to the highest codes of behavior and ethics, it is anticipated that few problems will arise.

To clarify what constitutes high standards of behavior and conduct, it should be understood that the following types of misconduct are subject to disciplinary action including but not limited to:

- Engaging in violent, abusive, indecent, profane, or otherwise disorderly conduct.
- Engaging in abusive, profane, or otherwise foul language.
- Engaging in harassment or unlawful discriminatory activities or violating University rules governing harassment or discrimination.
- Violation of the University’s alcohol, tobacco, firearm and drug-free environment policy.
- Violation of local, state, and/or federal laws on University premises or at University functions on or off campus.
- Violating the terms of any disciplinary sanction imposed for an earlier violation of this code or other board or University rules.
- Any act of behavior that interferes with, or disrupts any instruction, research, clinical activity, administration, or authorized University activity. This includes use of cellular phones, texting, or inappropriate online activities (such as shopping, chatting, or general “surfing”) during class periods.
- Sharing of password or other login information to any of the university systems (email, Canvas, student portal, etc), with others.
- Placing continued, persistent, or unreasonable demands on a University official in performance of duties that impedes normal departmental functions.
- Leading or inciting others to disrupt scheduled or normal activities of the University.
- Behavior involving abuse, threats, intimidation, harassment, menacing, stalking, or coercion which puts at risk the health and safety of any person.
- Causing reasonable apprehension of harm or engaging in conduct or communications that a reasonable person would interpret as a serious expression of intent to harm.
- Interfering with any University investigation, including but not limited to tampering with physical evidence or inducing a witness to testify falsely or to withhold testimony.
- Denying a board member, administrator, employee, student, or guest freedom of movement or legitimate use of the facility, disrupting a person’s performance of institutional duties or other educational activities, or occupying any University building or property after due and legal notice to depart has been given.

Administrators, faculty, employees, and students are responsible for maintaining the highest of professional standards. Consequently, questions of a disciplinary nature will be handled directly by the Provost, or in the case of the eDPT program, by the Program Director and student progression committee in conjunction with the Provost, as outlined in the eDPT program student handbook. It is understood that all individuals shall be afforded the right of due process before any type of disciplinary action can be taken against them.

**Definitions**

**Discrimination** is the act of treating others differently on a basis other than individual merit, or affording differential treatment on the basis of race, ethnicity, ancestry, national origin, religion, veteran status, gender, sexual orientation, age, or physical or mental disability, where such differential treatment is prohibited by law.
Harassment is the treatment of or behavior toward an individual or group that is abusive, hostile, intimidating, or has the intent to affect the individual’s educational performance or working environment.

Sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when

- submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s education.
- submission to or rejection of such conduct by an individual is used as the basis for educational decisions affecting such individual.
- such conduct has the purpose or effect of unreasonably interfering with an individual’s educational performance or creating a pervasively intimidating, hostile, or offensive environment.

Discrimination, Harassment, Sexual Misconduct, and Institutional Equity

Discrimination, harassment, and sexual misconduct is unwelcome at RMU, and should be reported to the appropriate parties so that it can be investigated, remedied, and addressed to both stop the offense and limit or eliminate further harm to RMU students, staff, and visitors.

Internal inquiries about and reports of harassment, misconduct, or discrimination may be made by contacting the RMU Office of Institutional Equity, Room 195, Building 3, RMUoHP main campus, or by phone (385-375-8798 direct / confidential Discrimination Hotline: 385.375.8344 / ieo@rm.edu). Confidential reporting may also be made by using an online link https://rm.edu/institutional-equity/.

For further definitions and for the equity resolution process used whenever these alleged violations occur, see the Nondiscrimination, Nonharassment, Conduct, and Equity Resolution Process Handbook, online at https://rm.edu/academic-affairs/general-student-information-forms/.

Violations of Academic Integrity and Code of Conduct

The University reserves the right to dismiss any student for any violations of the RMUoHP code of academic integrity and code of conduct to include the following reasons:

- cheating, plagiarism, or any form of academic dishonesty
- unlawful possession, use, or distribution of drugs or the use of alcohol on University property or during any University activity. The University will terminate and refer for prosecution any student involved in these activities.
- any unauthorized access to, copying of, or use of confidential or proprietary information or material of the University or the University’s employees or students
- computer fraud.
- Destroying, damaging, or taking any property of the University. The student will also be liable for the repair and/or replacement of the damaged property.
- sexual harassment and hate crimes
- insubordination
- unauthorized use of University equipment, facilities or any other property
- falsification of any document

Students have been given notice of the University’s expectations regarding academic integrity and appropriate conduct by virtue of its publication. On admission, each student signs that he or she has read the University Handbook and is charged with knowledge thereof. Students are not excused from academic dishonesty or honor code violations due to ignorance. Any member of the University community may bring to the attention of a faculty
member, PD, or University administrator evidence in support of an allegation that a student has demonstrated academic dishonesty, honor code violation, or code of conduct violation. The allegation will then be reviewed and, if it is deemed that a violation occurred, the student will be notified of the charge. The student will be given 15 days to respond to respond. Each student is afforded his or her due rights and process when a complaint has been filed. No penalty will be enforced until the student has been informed of the charge, of the evidence upon which it is based, and been given an opportunity to present a defense. After reviewing all evidence, including the student’s response/defense to the charge, if the University representative believes the student guilty of academic dishonesty or code violation, he/she will assess a penalty immediately and shall promptly report the case in writing to his or her immediate supervisor (PD for a faculty member, Provost for PD). The penalty will be in accordance with the policy contained in this handbook and will remain as a written record in the student’s file. In general, the penalty for any act of academic dishonesty will be a failing grade in the course and the maximum penalty will be academic dismissal. With PD approval, the faculty member may recommend lesser penalties as deemed warranted.

**University Appeals Process**

Academic appeals are petitions to change a decision rendered about an academic matter. The basis for a student’s appeal of an academic decision may be either that the academic judgment was unfair in the view of the student or that the University’s academic policies were applied incorrectly in the view of the student. Students may appeal grades, disciplinary actions, and academic actions by the University academic officers. Course substitutions and exceptions are also included in the academic appeal process. In order to ensure a fair and timely appeal process for all parties involved, the following procedures are in place for academic appeals.

**Appeal of Grades**

It is recognized that faculty members must have the primary responsibility of assessing the quality of academic performance, advancement, and achievement of students in their courses. However, faculty members as human beings can cause errors in calculation or judgment that may affect assessment of a student’s performance. Because all faculty members are required to reveal on the course syllabus the method by which the final grade will be determined, it is the responsibility of the student to review the course syllabus and become familiar with all components of the course grade. Further, it is the responsibility of the student to discuss any questions about grading practices during the course with the faculty member teaching the class. In some instances when a student alleges that the received final course grade is incorrect or does not accurately represent his or her effort, the student has the right to due process to appeal the received grade. The grounds for appeal can only be based upon specific circumstance and conditions: namely a) alleged error in process b) alleged partiality c) discovery of new information. The following procedures, designed to protect both the student and the faculty member, are to be followed so that the issue is resolved fairly and expeditiously:

1. **Within 15 days of receipt of an assigned grade, the student must make a formal written appeal to the faculty member involved explaining why he or she believes the grade should be changed.** If the faculty member finds an error has been made, he or she will submit a grade change form to the Registrar’s Office and notify the program director (PD) and student in writing of the change. If the faculty member finds the grade to be correct, he or she will notify the student in writing of the decision not to change the grade, specifically addressing the student’s stated reason for the appeal. The faculty member’s response must take place within 30 days of receipt of the appeal. A copy of all correspondence should be sent to the PD and the Registrar’s Office.

2. **If a complaint or dispute is not satisfactorily resolved, the student may appeal in writing to the program PD or, in the event the PD was the course faculty member, to the Provost within 30 days of receiving the faculty member’s written response.** If the Provost is the faculty member, the student may appeal to the PD, then the Provost. The student’s written notice of appeal should be accompanied by all relevant materials; a copy of the original written appeal to the faculty member and a copy of the faculty member’s written response must
be forwarded to the PD. The decision of the PD shall be communicated in writing to the student, the faculty member, and the Provost within 15 days of receiving the written appeal.

3. If either the student or the faculty member does not agree with the decision of the PD, either may appeal in writing to the Provost within fifteen days of receiving the PD’s notification letter. The student’s written appeal to the Provost should include the details of the grievance and an outline of the student’s efforts to resolve the issue. The Provost will refer the complaint or dispute to the Academic Appeals Committee.

4. The Academic Appeals Committee will hear appeals and grievances within thirty days of receiving the Provost’s request. The committee will be comprised of a PD who has not heard the complaint, two faculty members of the University, and one current student (the faculty member and the PD may not be the faculty member or PD who previously heard the appeal). The decision of the committee (by majority vote) will be final and not subject to further appeal. The Provost has the right to review any judicial situation and has the final decision on all findings, sanctions, and appeals.

Note: The Academic Appeal is an internal academic process of the University and legal counsel may not participate in any conference or hearing.

Appeal for Allegations of Academic Dishonesty

If a student wishes to appeal an action regarding violations of academic integrity, he or she may do so. The letter of appeal should: 1) be made in writing and submitted electronically to the Provost; and 2) include the details of the appeal and any supporting documentation. The Provost will review the issue and determine if it should be taken to the Academic Appeals Committee. The Provost has the right to review any judicial situation and has the final decision on all findings, sanctions, and appeals.

Appeal of Actions by the Executive Vice President of Academic Affairs/Provost

Students placed on academic probation, or dismissed for academic reasons, have the right to appeal the action within fourteen (14) business days from the date of notification. The appeal must be in writing and include pertinent information other than what is available at the time of the University’s initial action. The letter of appeal should be: 1) submitted electronically; 2) be addressed to the Academic Appeals Committee; and 3) be sent to the appropriate academic officer initiating the action (Provost). The student’s letter should include the details of the appeal and any supportive university documentation. If indicated, the Provost will refer the complaint or dispute to the Academic Appeals Committee.

The Academic Appeals Committee will hear appeals and grievances within thirty days of receiving the request. The committee will be comprised of a PD who has not heard the complaint, at least two faculty members of the University, and at least one current student (the faculty member and the PD may not be the faculty member or PD who previously heard the appeal). The decision of the committee (by majority vote) will be final and not subject to further appeal. The Provost has the right to review any judicial situation and has the final decision on all findings, sanctions, and appeals. During the appeals process, the academic probation status is maintained until a ruling is made by the Academic Appeals Committee.

Financial Aid Appeal Process

Any student not attaining the required progress standards and becoming ineligible for financial aid may submit a written appeal of his/her loss of Title IV eligibility within fourteen calendar days. The appeal should be addressed to the Executive Vice President of Finance (EVPF). The appeal must be accompanied by documentation of the mitigating circumstances that have prevented the student from attaining satisfactory academic progress. Only extraordinary circumstances will be considered, such as death or severe illness in the immediate family.

The Appeals Committee, composed of the Provost, Financial Aid Director, and the EVPF, will examine all financial aid appeals. The student will be sent the committee’s written decision within fourteen days of the Vice
Financial Aid Reestablishment Process

Students who lose Title IV eligibility may regain eligibility by meeting the Progress Standards by the end of any semester following the loss of aid. Eligibility will be reinstated for the following periods, provided the student remains within the SAP standards at the end of each semester.

Requesting Substitutions and Exceptions to Degree Requirements

Substitutions of published course requirements must be approved by the Provost, serving as liaison to the Curriculum Committee of the Academic Leadership Council. Written requests for substitutions for courses in the curriculum should be received from the PD of the program in which the student is enrolled, along with the rationale for making the substitution and should be sent to the Provost. The student and the PD will be notified by e-mail of the outcome. The Registrar’s Office will also place a copy of the decision in the student’s academic folder.

*For entry-level Doctor of Physical Therapy, Master of Physician Assistant Studies, and Master of Science in Speech-Language Pathology programs, please reference “Program Information” section of this Handbook.

Guidelines for Complaints of a Non-Academic Nature

1. Any member of the University community may bring to the attention of the Director of Student & Alumni Affairs evidence in support of an allegation that a student has demonstrated behavior inconsistent with University policy of a non-academic nature. This could include, but is not limited to, honor code violations, code of conduct violations, carry or bring to campus a weapon, smoking, or drinking alcoholic beverages on University grounds.

2. All formal complaints filed shall be in writing and contain the name and/or names of the student and a clear statement explaining the nature and circumstances of the complaint along with any other supporting documentation and presented to the Director of Student & Alumni Affairs. The Director of Student & Alumni Affairs will counsel with the student, investigate the complaint, and either resolve the complaint or submit a written recommendation to the EVP for Academic Affairs & Provost for suspension and/or dismissal. The student will be afforded an opportunity to respond.

3. If the student desires to appeal the Director of Student & Alumni Affairs decision, the student must file a Disciplinary Action Appeal Form, available from the University website, with the Director of Student Services within 14 days of the decision and state the reasons for the appeal.

4. The Director of Student & Alumni Affairs will convene an ad hoc grievance committee (comprised of at least two students and both academic and non-academic University employees). The accused student(s) will be notified in writing of the pre-hearing interview time, the hearing date, and the complaint being brought against him or her.

5. The ad hoc grievance committee will investigate the complaint to include interviewing the student and other investigation to satisfy the committee as it comes to a decision.

6. Students who are determined to have violated a University policy or regulation may face disciplinary action. The Director of Student & Alumni Affairs has the right to review any judicial situation and has the final decision on all findings, sanctions, and appeals.
Non-Academic Dismissal

Students dismissed from the University for non-academic reasons will be given a grade of AF (Administrative Failure). Dismissal may appear on a student’s transcript when action has been taken against the student. These notices do not place a hold on a student’s record, but do give notice of action taken against the student.

Guidelines for Complaints Which Fall Outside of Due Process

1. Any verbal complaints made to staff or faculty member that fall outside of due process (i.e. complaints by non-faculty or staff) will be directed to the appropriate administrator. The complaint shall be documented and maintained for a minimum of one year. If the issue is not resolved, the complainant shall be directed to file a formal written complaint.

2. All formal written complaints filed shall contain the name and/or names of the person(s) making the complaint and a clear statement explaining the nature and circumstances of the complaint along with any other supporting documentation. This shall be submitted to the appropriate administrator. The administrator will investigate the complaint, document all findings and communications and notify the complainant of any decisions and/or actions within 30 days. The complainant can appeal the decision if desired.

3. If the complainant desires to appeal the administrator's decision, the written complaint can then be filed with the Provost, or the President of the University. Decisions made by the President of the University are final. If the complainant is unsatisfied with any decision of the President of the University, he or she may contact the institutional accrediting agency through which the University is accredited (Northwest Commission on Colleges and Universities, NWCCU: 8060 165th Avenue NE, Ste. 100, Redmond, WA 98052-3981) or any appropriate programmatic accreditor.

Information on Registering a Complaint with a State

The University makes every effort to assist students in meeting their educational goals. We offer internal dispute resolution options by thoroughly investigating the facts relating to a student concern or grievance. Additional resources are available at the following state agencies:

- Arizona State Board for Private Postsecondary Education 1400 West Washington Street Room 260 Phoenix, AZ 85007. [https://pwpse.az.gov/content/student-complaint-procedure](https://pwpse.az.gov/content/student-complaint-procedure)
- California Bureau of Private Postsecondary Education P.O. Box 980818 West Sacramento, CA 95798-0818. [http://www.bppe.ca.gov/forms_pubs/complaint.pdf](http://www.bppe.ca.gov/forms_pubs/complaint.pdf)
- Idaho State Board of Education Attn: State Coordinator for Private Colleges and Proprietary Schools 650 West State Street P.O. Box 83720 Boise, ID 83720-0037.
- Nevada Commission on Postsecondary Education 3663 East Sunset Road Suite 202 Las Vegas, NV 89120. [http://red.nv.gov/Content/Compliance/File_a_Complaint/](http://red.nv.gov/Content/Compliance/File_a_Complaint/)

Netiquette Guidelines

(Adapted from St. Louis University Netiquette Policy)

Netiquette is a term derived from the words "Internet Etiquette" or “Network Etiquette” which describes the use of proper manners when communicating online. Internet etiquette should be used in all areas of electronic communication including electronic mail, chatting, blogging, forums, message boards, and so on. Be courteous
and respectful and always remember the “Golden Rule”. The following are Netiquette Guidelines that RMUoHP suggest be used for online communication.

1. **Maintain a scholarly voice.** All academic communication (including emails) should be well-written, thoughtful, and checked for errors (spelling, punctuation, etc.). Be aware that some faculty will require Forum postings in APA or AMA format.

2. **Think of your comments as printed in the newspaper.** Your online comments will be seen, heard and remembered by others, therefore think before you post. Before you make an emotional, outrageous, or sarcastic remark online, think about whether or not you would care if it was seen in your local newspaper.

3. **Be polite and professional.** When communicating online, it can be difficult to gauge a writer's emotion. Unless a web camera or microphone is used, the writer’s expression or emotion is difficult to determine. Use positive language and ask others to clarify messages for better understanding when needed. Avoid the use of CAPITAL LETTERS, excessive exclamation points (!!), acronyms, and emoticons (;D) in your academic communications.

4. **Avoid negativity.** You can challenge ideas and the course content, but avoid becoming negative online. When you choose to disagree, disagree politely. When you disagree politely, you stimulate and encourage great discussion. You also maintain positive relationships with others with whom you may disagree on a certain point.

5. **Don't disrupt.** Online dialogue is like conversation. If there is a dialogue or train of thought going on, join in, add to it, but, if you have something entirely different to bring up, wait or post it in another thread.

6. **Obey copyright laws.** Do not steal other peoples work, ideas, or arguments. Include references, avoid sweeping generalizations, and support your statements/discussion with the literature.

7. **Help Internet Newbies.** Be patient and helpful with others during online communication. Remember everyone was a novice user at one time or another.
Program Information

Doctor of Medical Science (DMSc)

Overview

The Doctor of Medical Science (DMSc) degree program at Rocky Mountain University of Health Professions (RMUoHP) prepares physician assistants (PA) for leadership roles in clinical, administrative, and academic settings. PAs with an active and unencumbered state licensure and/or NCCPA certification and a master's or doctoral degree from a regionally-accredited institution are eligible for the DMSc program.

The DMSc curriculum is composed of three concentration tracks: 1) Advanced Clinical Practice, 2) Healthcare Leadership & Administration, and 3) Healthcare Professions Education. Students in these concentration tracks will complete a practicum and applied scholarly project (ASP). The concentration tracks are committed to the development of lifelong learners and scholars who can perform the following: 1) create, evaluate, publish, present, and integrate scholarly works into their daily clinical practice, leadership role, or academic agenda; 2) act in leadership roles within their discipline and community; 3) provide the highest level of intervention to their patients; and 4) participate in undergraduate and graduate education environments to effectively teach the next generation of evidence-based PAs.

There are two curriculum models as options for completion of this program (Phased Model and Integrated Model), both designed for PA practitioners and educators to continue professional work obligations while completing this degree. Completion of the program involves completion or awarding of 36 total credit hours.

The ASP emphasizes the application of scientific principles related to the evaluation, intervention, and integration of clinically related issues of inquiry seen in healthcare practice. ASP committee members are known experts in the field with members of the RMUoHP faculty providing guidance and support. If post-professional students have not completed the program in the schedule provided by the selected curriculum model, they may continue enrollment for an additional semester to complete the ASP.

Educational Strategies

1. Focus on applying concepts of evidence-based practice in clinical, administrative, and academic settings.
2. Focus on the development of leadership skills in clinical, administrative, and academic settings.
3. A learner-centered model of education where students are actively involved in the teaching/learning process.
4. Mentoring by faculty that encourages critical reflection.
5. Content presented by faculty to students in an asynchronous format.
6. Readings assigned by faculty on relevant topics and from a variety of sources.
7. Forum discussions in which students respond to questions from faculty with written responses.
8. Individual projects in which students complete instructions provided by faculty.
9. Group projects in which groups of students work together to complete instructions provided by faculty.
10. Completion of the project development, proposal, literature review, and dissemination phases of an applied scholarly project.
11. Completion of the design, proposal, execution, and assessment phases of the practicum.

Degree Completion Deadline

The degree completion deadline for the Doctor of Medical Science program is four years from the first day of enrollment.
Gainful Employment Information

The Gainful Employment Disclosure for the Doctor of Medical Science program is located on the website: https://rm.edu/gainful-employment/

Post-Baccalaureate Doctor of Nursing Practice (FNP) and Post-Master’s Doctor of Nursing Practice (DNP)

Overview

The Doctor of Nursing Practice (DNP) limited-residency degree program is designed to prepare graduates for advanced clinical practice and leadership roles. Two tracks are offered including the post-baccalaureate entry focusing on Family Nurse Practitioner (FNP) competencies and a post-master’s entry.

The mission of the DNP program is to prepare advanced nursing clinical leaders able to affect change through system redesign and evidence-based decision making in a variety of clinical settings. Designed to prepare graduates for advanced clinical practice and leadership roles, program graduates will process the skills necessary to assume a broad range of roles in both direct and indirect health care settings. Consistent with the recommendation from the Institute of Medicine report on Health Professions Education (2002), graduates will become proficient at delivering patient-centered care, work as part of interdisciplinary teams, practice evidence-based care, focus on quality improvements and effectively utilize information technology.

The 90-credit curriculum of the post-baccalaureate FNP program and the 46-credit curriculum of the post-master’s DNP program will use the limited-residency model of the University’s current DNP program and other post-professional programs. Nationally recognized standards and competencies were used to develop the curriculum which will integrate online learning with carefully selected experiences in areas close to where students reside. A required scholarly project, with a focus on applying best current evidence to transform systems, culminates the student’s application of doctoral level thinking.

Post-Baccalaureate DNP (FNP):
The Essentials of Doctoral Education for Advanced Practice Nursing (American Association of Colleges of Nursing (AACN), 2006), the Domains and Core Competencies (National Organization of Nurse Practitioner Faculties (NONPF), 2012), and the Criteria for Evaluation of Nurse Practitioner Programs, 4th edition (National Task Force on Quality Nurse Practitioner Education, 2012) were used to frame the requirements of the FNP track. The course sequencing and prerequisites were designed to promote development of competencies. The program is designed to prepare nurses to deliver primary health care to families in a variety of settings. Students follow patients through the life cycle utilizing obstetric, pediatric, gynecologic, as well as adult and geriatric primary care diagnostic and management skills. The clinical experiences are supported by preceding or concurrent didactic content. Successful graduates of this program would be eligible to obtain licensure as an advanced practice registered nurse (APRN), nurse practitioner, with a population focus of family.

Post-Master’s DNP:
The post-master’s DNP program helps prepare nurses to assume greater practice and leadership roles within a healthcare organization. The Essentials of Doctoral Education for Advanced Nursing Practice for DNP programs (Commission on Collegiate Nursing Education, 2009) and the Practice Doctorate NP Competencies (NONPF, 2012) are the underpinnings for the requirements of the post-master’s program. The courses are designed to prepare the graduate to influence health and social policy for diverse populations in a variety of settings. A higher level of clinical skill and knowledge provided by the degree can advance clinical nursing practice and help keep pace with demands for clinical leaders and advanced practice educators.

Educational Strategies

1. Didactic education with emphasis on the clinical application of best practices.
2. Understanding of the application of research and the research process in the clinical setting.

4. Directed advanced clinical, health science, educational, or research application experience in supervised and mentored settings.

5. Completion of an original system change scholarly project.

**DNP Scholarly project**

The scholarly project is designed as a unique learning experience, providing the DNP student with an opportunity to explore an evidence-based system change in an area of interest. The culminating scholarly project at the completion of didactic coursework combines the application of theory with the best available evidence at the point-of-care to accelerate improvement in healthcare activities and processes. The scholarly project is conducted under the supervision of a clinical mentor and the university scholarly project coordinator and the results are presented on campus at the scholarly project defense. Scholarly project guidelines are available on the University website.

*Continuous Enrollment Requirements are as follows:*

At the conclusion of all didactic semesters:

1. The DNP student will enroll in the Doctoral Residency course (CC 811B) for the next semester and for each semester (CC 811C, CC 811D, etc) thereafter until the completion of the program.
   a. In order to enroll in each semester, the student must submit a DNP Residency Progress report and receive approval from the Director of DNP Scholarly Projects.

2. CC 811 courses do not require physical attendance on the University campus. However, student attendance is required on campus to defend the scholarly project.

Partial semester enrollment is not available. Students must maintain continuous enrollment with the University and be financially current with the University (or have made alternate arrangements with the University Finance Office) to enroll for each succeeding CC 811 course. Students who exceed the maximum time frame for their respective program and have successfully received an extension from the Provost [or the Academic Appeals Committee if commissioned by the Provost] will be required to enroll in CC 811 courses during each four-month period for the length of their extensions. Students who do not maintain continuous enrollment are subject to disciplinary action up to and including dismissal from the program.

**Degree Completion Deadline**

The degree completion deadline for the Post-Master’s Doctor of Nursing Practice program is four years from the first day of enrollment. The degree completion deadline for the Post-Baccalaureate Doctor of Nursing Practice program (FNP) is six years from the first day of enrollment.

**Gainful Employment Information**

The Gainful Employment Disclosures for the Doctor of Nursing Practice programs are located on the website: [https://rm.edu/gainful-employment/](https://rm.edu/gainful-employment/)
Post-professional Doctor of Occupational Therapy (OTD)

Overview

The post-professional Doctor of Occupational Therapy (OTD) limited-residency degree program is designed for professional occupational therapists, to augment the knowledge, skills, and behaviors attained in earlier professional educational programs. This new knowledge will prepare graduates for the complex healthcare practice settings which have emerged in the new century.

The primary purpose of the OTD program is to raise the knowledge base of practicing occupational therapists to equal that of the new entry-level OTD degree. The OTD program will broaden the student's perspective to include current topics such as occupation-centered theory and practice, evidence-based decision-making, the Occupational Therapy Practice Framework, and occupational science. In addition, the program will highlight the areas of marketing and administration, educational techniques, and applied research to ensure excellence in the field of occupational therapy.

The program also offers elective tracks which provide additional depth and expert guidance in the areas of Aging, Administration and Practice Management, Education, Hand Therapy, Pediatric Science, and Work and Health.

A minimum of 31 graded credit hours is required for successful completion of the OTD degree. The OTD program schedules and course requirements are outlined in the respective cohort curricula, which are published on the University website.

Educational Strategies

1. Didactic education with emphasis on the clinical application of best practices.
2. Understanding of the application of research and the research process in the clinical setting.
4. Completion of an integrated project emphasizing the Occupational Therapy Framework and foundations (OTD).

Degree Completion Deadline

The degree completion deadline for the Doctor of Occupational Therapy program is four years from the first day of enrollment.

Gainful Employment Information

The Gainful Employment Disclosures for the Doctor of Occupational Therapy programs are located on the website: https://rm.edu/gainful-employment/
Doctor of Philosophy (PhD)

Overview

The Doctor of Philosophy (PhD) limited-residency degree program is designed for healthcare practitioners with master’s degrees or other doctorates to pursue post-professional, advanced didactic study, clinical practice, and research in various health science fields.

The PhD and degree programs are designed to integrate 8 semesters of didactic on-site classroom activity, distance learning, and 4 semesters of independent study with creation of original research in the form of a dissertation, which is the main emphasis of the degree program (with the goal of publishing in peer-reviewed journals). A minimum of 70 credit hours is required for graduation. Applicants must hold a master’s degree or doctorate to enroll. Each PhD or program concentration has some variation within the credit units required for each degree component; however, the general curricular format is as follows:

Didactic Education (58 credits):

Students engage in didactic study, laboratory study, independent study, and online study for eight semesters. These semesters include on-site immersion sessions, with the bulk of study completed from the home location.

Pre-Dissertation Scholarship Requirement For PhD Program:

1. PhD students are required to submit a scholarly paper to a peer-reviewed journal in their respective field of interest (as the lead author). This submission must be completed and documented by the time the student is declared ABD (i.e. beginning the formal dissertation process after qualifying exams have been passed).

2. Topic of the paper can be of the students choosing and it is suggested that students seek an assignment product from one of their didactic courses to convert to the scholarly paper (e.g. critically appraised topic (CAT), systematic literature review, case report). The scholarly paper however, does not have to come from an assignment within an RMUoHP course and can be independently developed.

3. Process of development and verification will be:
   a. Identify the scholarly paper topic area independent from course work or the work to be developed from an existing assignment product. This can be done independently (student is sole author) or in collaboration with another student. Each student must be the lead author on one manuscript if working with others.
   b. Identify and recruit a mentor to assist in the development of the paper. This can be the instructor for the course from which the assignment was given, another faculty member affiliated with RMU or a professional colleague not currently a student. The mentor will review the paper and assist in its development. The mentor will also verify for the University that the paper has been vetted before formal submission. The mentor can perform this service as a courtesy or can be credited as a co-author when the paper is submitted for publication consideration (the latter is highly recommended). The student must list Rocky Mountain University of Health Professions as his/her primary affiliation in the author credits.
   c. Identify a journal to submit manuscript to, consult journal guidelines and submit the manuscript in consultation with mentor.
   d. Once the manuscript is submitted to journal for consideration, the Pre-Dissertation Scholarship Requirement Form along with the submission acknowledgement letter from the journal must be submitted for review and approval to research@rm.edu. Once approved, the requirement is recorded as met in the student’s record.
Qualifying Examinations:

The Qualifying Exams are administered to evaluate the competence of all PhD students following completion of the didactic portion of study. All PhD students must take, and successfully complete, qualifying exams as a component of the degree requirements. Every student must be enrolled in CC833A in the semester immediately following completion of the didactic portion of study. As CC833A is designed to prepare students for the core exam, a student must schedule the core exam during the last four weeks of the semester. Should a student be unsuccessful in the first attempt, the student must remediate and retake the core exam during CC833B. Once the initial core exam has been successfully completed, a student may schedule the concentration content exam. Submission of the dissertation prospectus is dependent on successfully passing both the core and concentration exams. To take either the core or concentration qualifying exam a student must be current in his/her University financial accounts.

The examination covers both core content and concentration content. The time allotted for the core portion of the exam is 4 hours, while the time allotted for the specialty portion varies with the structure of the exam. Proctored portions of the concentration exam cannot exceed 5 hours. The student must pass both the concentration and core portions of the exam. If the student is unsuccessful in passing the core or the concentration or both portions of the Qualifying Exam, he/she may retake either portions of the exam once (after remedial study). A charge of $250 will be incurred by the student to retake either exam.

Evaluation Standards for the Qualifying Examination

- Pass
- Pass, with specific remedial work required.
- Unsuccessful performance; remediation and retake of exam required.

If the student does not pass the exam within the 3 month time allotment and has not received an extension from his/her Program Director and the Associate Vice President of Academic Affairs (AVPAA) or Provost or is unsuccessful at a second attempt the student is Academically Dismissed from the graduate program and University.

Candidate Status:

Once a PhD student has successfully completed the qualifying examination, he or she is advanced to candidacy status, contingent on the recommendation of the PD and with approval of the Provost. The student is notified in writing of this advancement to candidacy by the Provost.

The PhD program schedule and course requirements are outlined in the respective cohort curricula, which are published on the University website.

PhD Dissertation

The dissertation is designed as a unique learning experience, providing the student with an opportunity to explore a specific area of interest combined with rigorous methodology. All students in the PhD program must complete a dissertation that is evidence-based and academically rigorous. The dissertation is conducted under the supervision of a dissertation committee consisting of a chairperson and a minimum of two additional members. One committee member must be an RMUoHP affiliate (i.e. current or former faculty member, alumni or past member of an RMUoHP dissertation committee). A dissertation proposal is presented and defended before the student’s committee prior to commencement of dissertation research and IRB processes completion. Following completion of the research effort, a dissertation final defense is presented before the dissertation committee at a seminar open to the general public. While the dissertation committee chairperson must be physically present at both the dissertation proposal defense and dissertation final defense, the remaining dissertation committee members do not need to be physically present at these events. However, students are strongly encouraged to have all committee members physically present at both events. An additional, important expectation is for
students to submit their dissertation research for peer-review in scientific journals. The required guidelines and forms for the dissertation are available on the University LMS.

**Continuous Enrollment Requirements are as follows:**

1. Each student will enroll in the didactic courses for his/her doctoral program according to the program curriculum and the semester schedule in effect at the time of enrollment.

2. At the end of the final didactic semester:

3. The **PhD student** will enroll in the three-credit CC833, course for two consecutive semesters (CC833A and CC833B). CC 833 and 877 courses do not require physical attendance on the University campus.

4. At the end of CC833B, the **PhD student** will enroll in the CC877 course for the next two semesters (CC877A & 877B) and for each semester (CC877C, CC877D, etc.) thereafter until the completion of the 1) minimum number of required program credits and 2) doctoral dissertation is completed. The doctoral dissertation is considered complete when the student is cleared for graduation. In order to register for CC877C or beyond, students must also be within the maximum timeframe for program completion (see Policy 1255).
   a. In order to enroll in each semester following the CC833A course, the student must submit a Dissertation Progress report signed by the student’s dissertation chair. This report must demonstrate substantial progress towards completion of the dissertation and is reviewed and approved by the Director of Post-Professional Research. This report will be submitted for each subsequent semester until the dissertation is completed and the student completes the program.
   b. Approval for continuation is dependent upon the regular filing of a satisfactory progress plan. Students whose progress has been determined unsatisfactory after two consecutive reporting periods (i.e. two consecutive CC 833 or 877 semesters) will not be allowed to enroll in any further CC877 credits and will be dismissed from the University.

Partial semester enrollment is not available. Students must maintain continuous enrollment with the University and be financially current with the University (or have made alternate arrangements with the University Finance Office) to enroll for each succeeding CC 833 and 877 course. Students who exceed the maximum time frame for their respective program and have successfully received an extension from the Provost [or the Academic Appeals Committee if commissioned by the Provost] will be required to enroll in CC 877 courses during each four-month period for the length of their extensions. Students who do not maintain continuous enrollment are subject to disciplinary action up to and including dismissal from the program.

**Educational Strategies**

1. Didactic education with an emphasis on a research core as well as specific health science educational learning.

3. Foundation in the analysis and critique of scientific literature.

4. Directed advanced clinical, health science, educational, or research experience in supervised and mentored settings.

5. Grounding in research design and bio-medical statistics.

**Degree Completion Deadline**

The degree completion deadline for the Doctor of Philosophy program is eight years from the first day of enrollment.
**Gainful Employment Information**

The Gainful Employment Disclosure for the Doctor of Philosophy program is located on the website: [https://rm.edu/gainful-employment/](https://rm.edu/gainful-employment/)

---

**Entry-level Doctor of Physical Therapy (DPT)**

**Overview**

The entry-level Doctor of Physical Therapy (DPT) residential degree program is designed to prepare the graduate to be eligible for licensure and entry into the physical therapist profession. The mission is to provide a student-centered education that prepares graduates for socially responsible, outcomes-oriented, evidence-based, autonomous and collaborative physical therapy practice.

The DPT program strives to attract a dynamic and diverse faculty who possess a common desire to shape the physical therapists of tomorrow by modeling both clinical and teaching excellence. By design, the DPT program plans on expanding on the progressive model of the University by incorporating advances in technology and educational theory in the development and implementation of its programs. RMUoHP recognizes that even with the best technology and curriculum, the heart and soul of the program is the student. The program caters to highly motivated students who wish to be active participants in their education.

In keeping with both the University and Program Missions, RMUoHP graduates are prepared to enter the physical therapy work force as skilled and ethical members of the healthcare community.

The course sequence flows from the mission, philosophy, and goals of the DPT program, and is designed to facilitate the education of the students. The curriculum outline, list of courses, and course descriptions are located on the RMUoHP website. The program is a campus-based program consisting of 8 continuous semesters of classroom and clinical experiences.

**Educational Strategies**

1. A learner-centered model of education, where students are actively involved in the teaching/learning process.
2. As the program progresses, teacher-student collaboration in the educational process increasingly encourages students to take responsibility for their own learning, discovery, and application of new knowledge and skills.
3. Mentoring by faculty that encourages critical reflection.
4. Didactic and clinical education built on the students’ existing knowledge base, progressing from simple to complex conceptualization and advancing from concrete to abstract analysis.
5. Student development of core values and skills is enhanced through appropriate faculty interaction and modeling of professional behaviors and attitudes.
6. Assessment of student learning and preparation for clinical practice as an intentional and integrated component of student learning.

**Degree Completion Deadline**

The degree completion deadline for the entry-level Doctor of Physical Therapy program is four years from the first day of enrollment.
Program-Specific Policies

All DPT program policies can be found in the DPT Student Handbook located on the website at https://rm.edu/academic-affairs/general-student-information-forms/. Where discrepancies exist between program and University policies, program policy takes precedence.

Gainful Employment Information

The Gainful Employment Disclosures for the Entry-Level Doctor of Physical Therapy program are located on the website: https://rm.edu/disclosure/DPT/Gedt.html

Transitional Doctor of Physical Therapy (tDPT)

Overview

The transitional Doctor of Physical Therapy (tDPT) limited-residency degree program is designed for professional physical therapists, to augment the knowledge, skills, and behaviors attained in earlier professional educational programs. This new knowledge will prepare graduates for the complex healthcare practice settings which have emerged in the new century.

The tDPT program is designed to provide meaningful, obtainable, and affordable post-professional education while meeting American Physical Therapy Association (APTA) competencies that facilitate the development of the 21st century physical therapist practitioner. The post-professional transitional clinical doctorate program in physical therapy, as defined by the APTA, should "provide post-baccalaureate physical therapists with opportunities to augment knowledge, skills, and behaviors attained in initial professional education." The goal of RMUoHP is to address the public’s need for high quality physical therapy service by providing practicing clinicians with opportunities to develop knowledge, skills, and behaviors commensurate with contemporary evidence-based practice and educational standards.

The program also offers the Pediatric Science elective track, which provides additional depth and expert guidance in that area.

A minimum of 22 graded credit hours is required for successful completion of the DPT degree. The tDPT program schedules and course requirements are outlined in the respective cohort curricula, which are published on the University website.

Educational Strategies

1. Didactic education with emphasis on the clinical application of best practices.
2. Understanding of the application of research and the research process in the clinical setting.
4. Completion of a peer-reviewed and referenced case report manuscript on a pre-approved topic (tDPT).

Degree Completion Deadline

The degree completion deadline for the transitional Doctor of Physical Therapy program is three years from the first day of enrollment.

Gainful Employment Information

The Gainful Employment Disclosures for the Transitional Doctor of Physical Therapy programs are located on the website: https://rm.edu/gainful-employment/
Doctor of Speech-Language Pathology (SLPD)

Overview

The Doctor of Speech-Language Pathology (SLPD) limited-residency program develops evidence-based clinician with advanced clinical skills who can critically evaluate the literature and participate in the research process through identification of best practice and apply that to independent clinical research.

The Doctor of Speech-Language Pathology is designed to prepare professionals focused on developing scientifically-trained and clinically-experienced master speech pathologists as leaders and change agents by providing broad knowledge of social, political, and economic forces at work in society. Graduates of this program will increase their contribution to healthcare through the knowledge and skills developed through active use and integration of research and concepts of evidenced-based practice, clinical quality improvement, organizational development, leadership and advocacy.

Educational Strategies

1. Lectures presented by instructors to students via screencast/video, so that students have access to them at any time of day (i.e., utilizing asynchronous communication).

2. Readings assigned by instructors on relevant academic topics. Readings may be based on textbooks, but may also include a wide variety of other sources such as journal articles, monographs, blog posts, and Internet sites.

3. Forum discussions in which students respond to written queries of instructors by writing a relevant response such as (a) analyzing or explaining the subject/topic, (b) providing associated examples, or (c) generating relationships among the various points of the discussion.

4. Individual projects, in which students complete instructions provided by the instructor, but do so individually rather than in groups. These projects can vary greatly in terms of time and complexity from, for example, from writing a 1-page summary to conducting scholarly project based on an independent evidence-based practice investigation.

5. Small group projects, in which students complete instructions provided by the instructor, but do so in groups rather than individually. As with the individual projects, small group projects can vary greatly in terms of time and complexity. The focus of small group projects may be either the development of professional knowledge/skills or the development of collaborative learning skills.

6. Group discussions involving real-time (i.e., synchronous) oral and/or written communication involving multiple students, either with or without the instructor present, during which relevant academic topics are discussed.

Continuous Enrollment Requirements are as follows:

At the conclusion of all didactic semesters:

   1. The SLPD student will enroll in the Capstone Residency course (SLP 711A) for the next semester and for each semester (SLP 711B, SLP 711C, etc.) thereafter until the completion of the program. 
      a. In order to enroll in each semester, the student must submit a progress report and receive approval from the Program Director. 
      b. SLP 711 courses do not require physical attendance on the University campus.

Partial semester enrollment is not available. Students must maintain continuous enrollment with the University and be financially current with the University (or have made alternate arrangements with the University Finance Office) to enroll for each succeeding SLP 711 course. Students who exceed the maximum time frame for their respective program and have successfully received an extension from the Provost [or the Academic Appeals Committee if commissioned by the Provost] will be required to enroll in SLP 711 courses during each four-month
period for the length of their extensions. Students who do not maintain continuous enrollment are subject to disciplinary action up to and including dismissal from the program.

**Degree Completion Deadline**

The degree completion deadline for the Doctor of Speech-Language Pathology (SLPD) limited-residency program is four years from the first day of enrollment.

**Gainful Employment Information**

The Gainful Employment Disclosures for the Doctor of Speech-Language Pathology program are located on the website at: [https://rm.edu/disclosure/SLP/Gedt.html](https://rm.edu/disclosure/SLP/Gedt.html)

**Master of Physician Assistant Studies (MPAS)**

**Overview**

The Master of Physician Assistant Studies (MPAS) residential degree program is designed to qualify students for, and prepare them to successfully pass, the Physician Assistant National Certifying Examination (PANCE). National certification is a requirement for obtaining licensure by all 50 states.

The mission of Rocky Mountain University of Health Professions (RMUoHP) Physician Assistant (PA) Program is to educate competent physician assistant graduates who value and provide comprehensive, evidence-based, patient-centered care and who are committed to lifelong-learning, professional growth, and collaborative practice.

The vision of the RMUoHP PA Program is to:

- foster a culture of growth mindedness, unity of purpose, collegiality, and insatiable thirst for learning,
- deliver a richly balanced, application-based curriculum centered on critical principles of health and disease,
- graduate self-reflective professionals with adept clinical reasoning skills and keen sensitivity to unique patient needs, and
- empower graduates to become digitally literate clinicians possessing advanced knowledge of information technology and collaborative networking skills.

The PA Program is a 28-month campus-based program emphasizing an experiential learning curricular design. A variety of pedagogical approaches will be employed beyond standard lecture, including case-based, problem-based, and team-based learning. Beginning early in the didactic phase, students will be challenged to work through simulated clinical experiences with standardized patients (actors trained to portray specific patient presentations). These experiences will include presenting cases orally to faculty members acting as supervising practitioners and developing comprehensive notes with detailed assessments and management plans. Moreover, a full-time clinical rotation will break up the didactic phase of the program, enabling students to approach the remainder of their didactic material with a newly formed clinical perspective prior to concluding the program with nine full-time supervised clinical practice experiences.

**Educational Strategies**

1. Substantial percentage of classroom exercises consisting of collaborative learning methods to reflect the changing nature of medical practice in employing a team approach to patient care.
2. High fidelity experiential learning simulations using trained actors as standardized patients challenging students to work through real-world clinical scenarios.
3. Formal mentor-mentee groups led by experienced faculty to guide students in their professional development and facilitate tacit understanding of collegial interpersonal dynamics.
4. Mixed methods approach to assessment encouraging and reinforcing educational efforts across all learning domains—cognitive, metacognitive, psychomotor, and affective.

5. Variety of teaching methods employed beyond traditional lecture, including but not limited to case-based, problem-based, team-based and self-reflective learning.

6. Continual focus on developing skills to quickly access, accurately interpret, and apply high-quality, evidence-based information for unique patients at the point of care.

7. Clinical year project focused on developing reflective practice habits, including self-assessment, improvement planning, and consistent implementation of changes based on the medical literature.

**Degree Completion Deadline**

The degree completion deadline for the Master of Physician Assistant Studies program is five years from the first day of enrollment.

**Program-Specific Policies**

All MPAS program policies can be found at the following link: [http://rmupap.github.io/program-policies/](http://rmupap.github.io/program-policies/). Where discrepancies exist between program and University policies, program policy takes precedence.

**Gainful Employment Information**

The Gainful Employment Disclosures for the Master of Physician Assistant program are located on the website: [https://rm.edu/disclosure/MPAS/Gedt.html](https://rm.edu/disclosure/MPAS/Gedt.html)

**Master of Science in Health Science (MSHS)**

**Overview**

The Master of Science in Health Science (MSHS) limited residency degree program is designed for healthcare practitioners with bachelor’s degrees to pursue post-professional, didactic study, professional practice, and research in various health science fields.

The Master of Science in Health Science is for bachelor’s prepared individuals who are employed as strength coaches, personal trainers, certified athletic trainers, military personnel, coaches and physical educators, and others who are interested in pursuing an advanced degree related to their respective professions.

Three tracks are currently offered in the program and provide the opportunity for individuals to focus on health and wellness coaching, rehabilitation science, and sports performance. The health and wellness coaching track is suited for individuals who have a desire to facilitate positive, sustainable behavior change in settings such as physician practice or corporate wellness. The rehabilitation science track is suited for individuals who have a desire to advance their knowledge focusing on evidence-based approaches to athletic training, physical therapies, and injury prevention and recognition. The sports performance track is suited for individuals who have a desire to increase their exercise science knowledge focusing on strength and conditioning/sport performance.

The central element of the program is the completion of a thesis or capstone project that incorporates best practice and knowledge in the area of the concentration. Exercise physiology, strength and conditioning, nutrition, injury prevention and recognition courses provide a complimentary foundation. The curriculum is designed to increase the student's abilities to identify best practice built on evidence-based decision-making. The pedagogy emphasis affords students an interactive environment focusing on the designing of learning for individuals across the lifespan.

The program is designed for students to continue professional work obligations during the 12-month didactic portion of the program while completing three semesters; two semesters require attendance on campus for discussion, demonstration, and presentations. There are two options to complete each degree program. The first
is an internship (practicum) followed by comprehensive examinations and a capstone project. Students will need to return to campus to defend their capstone projects during their fourth semester. The second option is to complete a master’s thesis. Students will work with their program director to assemble a committee to help mentor and facilitate the research process. The thesis option is ideal for students interested in continued graduate study in their respective field of study. The non-thesis option would be appropriate for students more interested in advancing their education as well as their careers as practitioners.

Educational Strategies

1. Didactic education with an emphasis of an introductory research core as well as specific health science educational learning.
3. Directed advanced sport performance or pediatric exercise science internship experience or
4. Directed introductory sport performance and pediatric exercise science research experience.

Continuous Enrollment Requirements are as follows:

At the conclusion of all didactic semesters:
1. The MSHS student will enroll in the Graduate Residency course (HS 711A) for the next semester and for each semester (HS 711B, HS 711C, etc) thereafter until the completion of the program.

Partial semester enrollment is not available. Students must maintain continuous enrollment with the University and be financially current with the University (or have made alternate arrangements with the University Finance Office) to enroll for each succeeding HS 711 course. Students who exceed the maximum time frame for their respective program and have successfully received an extension from the Provost [or the Academic Appeals Committee if commissioned by the Provost] will be required to enroll in HS 711 courses during each four-month period for the length of their extensions. Students who do not maintain continuous enrollment are subject to disciplinary action up to and including dismissal from the program.

Degree Completion Deadline

The degree completion deadline for the Master of Science in Health Science program is three years from the first day of enrollment.

Gainful Employment Information

The Gainful Employment Disclosures for the Master of Science in Health Science programs are located on the website: https://rm.edu/gainful-employment/

Master of Science in Speech-Language Pathology (MS SLP)

Overview

The Master of Science in Speech-Language Pathology (MS SLP) residential degree program is designed to prepare students who are committed to lifelong professional growth and collaborative practice as they provide comprehensive, evidence-based, patient centered care for the betterment of society.

The sixty-six (66) credit MS SLP curriculum is a twenty-four (24) month residential program that includes a mix of traditional lecture/lab and blended/online courses during six (6) continuous semesters of classroom and clinical experiences that provide broad-based training plus a specific emphasis for practice in medical settings.

Med MS SLP master’s students will experience at least 25 hours of clinical observation and 375 hours of direct and simulated client/patient contact in a broad array of clinical settings. Clinical settings include, but are not
limited to hospitals, clinics, rehab facilities, acute care rehab facilities, long-term acute care facilities, public and private schools, outpatient facilities, and skilled nursing facilities. You will acquire these hours under the supervision of a qualified professional who holds ASHA certification in Speech-Language Pathology.

The MS SLP master’s program at Rocky Mountain University of Health Professions focuses on advanced coursework that will prepare graduates as medical Speech-Language Pathologists to work in settings such as: hospitals, clinics, and acute care rehab facilities. Speech-language pathologists in a medical setting assess, diagnose, treat and help to prevent oral motor, swallowing, cognitive-linguistic, speech, and language disorders.

Upon graduating from the MS SLP master’s program, graduates are encouraged to certify for ASHA’s Certificate of Clinical Competence (CCC). The Certificate of Clinical Competence (CCC) is granted by ASHA in speech-language pathology. It is a nationally recognized credential. Speech-language pathologists who possess a graduate degree are eligible to apply for voluntary certification, which requires the completion of a graduate degree, a supervised clinical fellowship, and a passing score on the national examination. Additionally, the candidate for certification must acquire the requisite knowledge and skills mandated by certification standards while enrolled in a program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology.

**Educational Strategies**

1. A learner-centered model of education where students take an active role in the teaching and learning process.
2. Mentoring by faculty that encourages critical reflection and problem solving.
3. Student development of core values and skills enhanced through appropriate faculty interaction and modeling of professional behaviors and attitudes.
4. Didactic and clinical education involving group discussions that include analysis and synthesis of theory and practice.
5. Assessment of student learning and preparation for clinical practice as an intentional and integrated component of student learning.

**Degree Completion Deadline**

The degree completion deadline for the Master of Science in Speech-Language Pathology program is four years from the first day of enrollment.

**Program-Specific Policies**

All MS SLP program handbook can be found at the following link: [https://rm.edu/academic-affairs/general-student-information-forms/](https://rm.edu/academic-affairs/general-student-information-forms/). Where discrepancies exist between program and University policies, program policy takes precedence.

**Gainful Employment Information**

The Gainful Employment Disclosures for the Master of Science Speech-Language Pathology program are located on the website: [https://rm.edu/gainful-employment/](https://rm.edu/gainful-employment/)
Admissions

Admissions materials and requirements for all RMUoHP degree programs may be accessed via the Admissions website at http://www.rm.edu. To be eligible for most degree programs, an applicant must demonstrate a previous record of successful academic achievement, clinical experience, and the motivation to pursue graduate level education.

Clinical Education Requirements

Clinical rotations and internships may be part of the curriculum and may require that a student temporarily relocate. The student is responsible for the cost of the travel and other associated expenses.

Foreign Educated Applicants

A foreign-educated applicant is defined as an applicant who has been educated outside the United States (U.S.). Applicants who have completed coursework and/or obtained a degree from an educational institution outside the U.S. are required to have their educational credentials evaluated by a National Association of Credential Evaluation Services (NACES) certified U.S. equivalency reporting agency. A degree equivalency evaluation and a course-by-course evaluation to determine the GPA is required.

Examples of certified credentialing service include:

- **World Education Services**
- **Education Credential Evaluators**
- **International Consultants of Delaware, Inc**
- **International Education Research Foundation**

A foreign-educated applicant may be required to submit a minimum TOEFL/iBT overall score of at least 92 with the following minimum section requirements:

- Reading: 20
- Listening: 20
- Speaking: 20
- Writing: 20

The TOEFL/iBT exam must be taken within 2 years of application. This is a requirement for all applicants for whom English is not an official native language. When taking the TOEFL/iBT, students should use code 5751 to have results sent directly to the University.

Additionally, to be eligible for most degree programs, an applicant must be a U.S. citizen or resident.

Deadlines for Applications

Most applications are processed as soon as they are complete, and admission decisions are generally made within a few weeks from the time the application and all supporting materials are received. Applicants are encouraged to submit their application before the early application deadline. An application must be submitted before the final application deadline.

Program Cancellation or Postponement

The University reserves the right to cancel or postpone a program prior to the published start date.
Full Disclosure Requirement

Incomplete or falsified admissions information constitutes grounds for refusal to admit, immediate dismissal, and/or loss of credit, and forfeiture of all tuition and fees paid.

Confidentiality

Admissions materials received by the University are kept in strict confidence. Once the application materials are received, these materials are the property of the University and will not be returned to the applicant. All applicant materials are kept for one year following receipt if the applicant does not enroll.

RMUoHP reserves the right to defer admission of potentially eligible candidates to the next course start date if credentials are submitted after established deadlines or enrollment limits have been reached.

Notice of Admissions Acceptance or Denial

All admission decisions are final. The admissions process is competitive. Admission decisions are based on a combination of academic background, professional experience, test scores, state of purpose (essay), and letters of recommendation. If accepted, all applicants will be given a period of time to consider the offer and then confirm enrollment or decline the admissions offer.

Deferring Admission

Acceptance of the offer is generally not deferred; however, programs are permitted to recommend admission deferrals on a case-by-case basis, generally only for extenuating circumstances. If granted, the deferral is normally for the next cohort start only; the student is expected to have accepted Rocky Mountain University of Health Professions’ offer of admission. Accordingly, a student who requests and is approved to defer admission is considered under an obligation to enroll and attend the program the following cohort start.

Where the deferred student fails to satisfy the reason for or conditions of the deferral, the deferral may be withdrawn and the offer of admission may be rescinded, thereby prompting the need to re-apply, if the applicant wishes to be considered for future admission.

Requests for deferral should be made according to normal admission response deadlines.

Admissions Review Committee

The Admissions Review Committee (ARC) is comprised of representation from the professional disciplines of the University’s programs. If an applicant does not meet the minimum requirements for admission, but is deemed worthy of consideration for admittance by the Program Director, then the Program Director may request through the Vice Provost/Academic Dean (VP/AD) an ARC review. The ARC will review specific criteria and may uphold the Committee decision or make recommendations for provisional admittance. For the latter, specific criteria that must be met to achieve full-time active student status must be established. The decision of the ARC is binding.

Auditing Classes

Students who are currently enrolled or were formerly enrolled in the University may audit courses on a space-available basis. Students who wish to audit classes (attend but not receive credit) may do so after contacting the Registrar’s Office to receive faculty member and PD permission. The student does not receive graded credit for participation in the course but will receive an AC (Audit Course designation) on his or her transcript. Tuition for auditing courses at RMUoHP is equal to 50% of the regular course tuition.
Transfer of Credits

Transfer credit will be awarded consistent with University guidelines for a course equivalent to a University course. It is preferred that requests for evaluation of all transfer credits be submitted to the Registrar’s Office prior to the start of the student’s first semester. However, students may be permitted to submit requests for evaluation of transfer credits up to the add/drop deadline of the semester in which the course is offered. Total transfer credits are limited to no more than 25% of the required credits for completion of a specific degree program.

The University will evaluate for credit all successfully completed course work at accredited post-secondary institutions. It is preferred that transfer credits come from institutions holding regional and/or programmatic accreditation, however credits received from nationally accredited institutions will be evaluated. Credits granted during the time that an institution is an official candidate for accreditation will be afforded the same consideration as credits granted after an institution receives full accreditation status.

External Transfer Credits
Students must request that specific courses be evaluated by completing the “Transfer Credit Evaluation Form” found on the RMUoHP website.

Transfer credit from outside institutions may be accepted under the following conditions and stipulations:

1. The credit is from a course taken at an accredited institution or recommended for transfer by the American Council on Education.
2. The course is equivalent based on the nature, level, credits, content and comparability of the course to University offerings by comparing course syllabus and catalog descriptions.
3. The student submits, for evaluation, course descriptions, syllabi, list of textbooks and other materials used in the course being evaluated for transfer credit.
4. An equivalent grade of “B-” or higher was earned.
5. Courses are preferred to have been completed within five years of acceptance into the program at RMUoHP. The Program Director (PD), in conjunction with the Associate Vice President of Academic Affairs (AVPAA) or Provost, may on occasion accept credits older than five years if the course deliverables reflect current course outcomes.
6. The PD and select faculty members will evaluate previous course work.

Only credit units are transferred. Grades do not transfer and RMUoHP does not use grade points earned at other institutions for purposes of computing cumulative University grade point averages.

Internal Transfer Credits
For internal transfer credit requests, students should contact the Registrar’s Office. The Registrar’s Office will review the student’s record and submit an outline of the student’s potential transfer courses for evaluation by the PD and AVPAA or Provost.

Transfer credit between RMUoHP programs may be accepted under the following conditions and stipulations:

1. The PD of the new program will evaluate previous course work in order to determine the appropriateness of the credits for transfer.
2. The course is equivalent based on the nature, level, credits, content and comparability of the course to University offerings by comparing course syllabus and catalog descriptions.
3. An equivalent grade of “B-” or higher was earned.
4. Courses are preferred to have been completed within five years of acceptance into the program at RMUoHP. The PD, in conjunction with the AVPAA or Provost may on occasion, accept credits older than five years if the course deliverables reflect current course outcomes.
Immunizations

Incoming and enrolled students are required to meet all immunization requirements, as defined by each program, for admission and through to completion of that program. In rare circumstances, exceptions to this policy may be approved through the below appeal process.

Appeals for Exception to Immunization Requirements:

Appeals for exceptions to immunization requirements must be submitted prior to admission, for incoming students, or as early as possible when the situation arises for currently enrolled students. In order to request exceptions to this policy, students must submit an appeal request to the Provost. The appeal request must include why the student is, or will be, unable to meet the immunization requirements and how the student plans to complete the program, including clinical rotations, without the program's required immunizations. The Provost may elect to send the appeal to the Academic Appeals Committee for a recommendation. The Provost will issue the final decision on these appeals.

Technology Requirements

For all students starting or later except in the Physician Assistant (PA) program. For PA program technology requirements, go to https://pahub.rmuohp.edu/Technology.

Hardware:

- A secure personal computer:
  - PC Users: Windows 10
  - Mac Users: High Sierra (10.13) or higher
- A reliable, high-speed internet connection with a minimum of 10 mbps download and 2 mbps upload
- Computer headset (headphones and microphone)

Specifications:

- Processor: Intel Core i5 or better
- Memory: 8 GB or more
- Storage: 128 GB Flash Solid-State Drive (256GB or more recommended)
- Display: 13 inches or larger (retina display 12-inch is acceptable)
- WiFi Connectivity: 802.11ac
- Camera: Built-in high resolution (720p or better)

Software:

- Microsoft Office software 2010 or later, including Word, Excel, and PowerPoint.
  - If you have a Mac, you’ll need the “Office for Mac” version
- Adobe Flash Player 15 or later
- Adobe PDF Reader- https://get.adobe.com/reader/
- An Antivirus product installed and updated regularly

Literacy:

Basic computer and internet skills, to include:

- Opening of multiple windows concurrently, Internet searching, Using browsers
- Resources/Support for troubleshooting computer issues
- Competency using MS Office Suite (Word, Excel, & PPT)

For more details, refer to the University Website.
Admissions Policies

Equal Access and Opportunity – Nondiscriminatory Policies

Administrators, faculty, and staff at RMUoHP are committed to providing equal access to education and employment opportunities to all regardless of age, race, religion, color, national and ethnic origin, gender, sexual orientation, disability, and military status. The University is also committed to providing equal access/opportunity in admissions, recruitment, course offerings, facilities, counseling, guidance, advising, and employment and retention of personnel and students. The administration is committed to implementing federal and state laws and regulations governing equal access/opportunity. It further extends its commitment to fulfilling the provisions of Title IX, Section 504 of the Rehabilitation Act, and the American with Disabilities Act (ADA). These non-discriminatory policies and practices are an integral part of the mission of the University, and the Diversity and Disabilities Advisory Committee helps ensure that equal access and opportunity policies are followed.

Additionally, the University complies with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973. Inquiries regarding these policies, the filing of grievances or grievance procedures on these matters may be directed to the director of admissions. Inquiries regarding federal laws and regulations concerning nondiscrimination in education or RMUoHP compliance with those provisions may be directed to the Office of Civil Rights, U.S. Department of Education, 221 Main Street, Suite 1020, San Francisco, California 94105.

RMUoHP adheres to the principles of Section 504 of the Rehabilitation Act of 1973, which provides that no otherwise qualified student with a disability shall solely for reason of his or her disability be excluded from the participation in, be denied benefits of, or be subjected to discrimination in the program. RMUoHP does not exclude qualified persons with disabilities from any course of study, or any other part of the program (refer to skills section for further explanation of what essentials are necessary to function within a given health science discipline). RMUoHP’s students with disabilities must meet the requirements and levels of competency required of all students in the program. To assist students with disabilities in fulfilling these responsibilities of the program, every reasonable effort is made to accommodate special needs of such students. All applicants with disabilities are advised of this policy at the time of their application and/or acceptance to the University.

The RMUoHP campus has wheelchair access to all areas, including the student lounge, conference rooms, classrooms, laboratories, and main lobbies. Restrooms are equipped for individuals with mobility-challenges.

Students requiring special considerations during laboratory exercises will be required to pay for any extra expenses incurred by the University to meet these special needs. For example, if a female student’s religious beliefs require that she perform the laboratory exercise isolated from the male students and male faculty, the student will be responsible for paying the rent on the extra room, the female lab instructor and any other additional costs.

Learning Disabilities/Physical Challenges

RMUoHP adheres to all of the applicable federal civil rights laws and laws of the state of Utah regarding unlawful discrimination. Accordingly, RMUoHP makes all academic programs and services accessible to and useable by “qualified individuals with disabilities” in the most integrated setting appropriate, unless doing so would either result in a fundamental alteration in the course or program that compromises the integrity of the course or program, or cause an undue financial or administrative burden.

As defined by the University, a “qualified individual with disability” is one who:

1. Has a disability that substantially limits learning, including, but not limited to, physical and affective conditions as interpreted by current law;
2. Has a documented record of such disability; or is perceived by others as having a disability; and
3. Can satisfy the functional skills, experience, knowledge, and other requirements of their program and, can perform the essential functions required of their profession, with or without accommodation.
It is the responsibility of a student who meets the definition of a “qualified individual with a disability” to request an appropriate accommodation through the Committee on Inclusiveness via the department of Student & Alumni Affairs Institutional Equity Officer, if a student believes their disability will interfere with their ability to successfully complete an academic program.

Although academic accommodations may be requested at any time, a student needing accommodations should notify the Institutional Equity Officer (IEO) as soon as possible to ensure that there is enough time to review the request and provide an academic accommodation, if appropriate. No academic accommodations will be implemented retroactively, and students are not entitled to an accommodation for a test, exam or other assignment until an accommodation has been granted through official channels. Furthermore, students may not wait until after completing a course or activity or receiving a poor grade to request an academic accommodation.

Practical and skill based exams fundamentally test not only knowledge, but timely and safe health care practices under the standards of the respective RMUoHP program, the specific profession code of ethics and standards, and individual program accreditation requirements. For this reason, practical examinations and skill based testing, as opposed to written exams, quizzes, and other evaluations, are not usually granted extra time as an accommodation, because to do so may result in a fundamental alteration that can compromise the integrity to the RMUoHP courses and programs. In all cases the Committee on Inclusiveness recommends that the student seek guidance from the respective academic department and the IEO. The IEO is also available to consult with individual program directors and faculty to aid them in finding equitable solutions.

**Obtaining Program Modification for Students with Disabilities**

If a student meeting the definition of a “qualified individual with a disability” believes his/her disability will interfere with the ability to complete an academic program, a reasonable accommodation may be requested. The following steps describe the process for requesting an accommodation:

1. The student must submit the following materials to the IEO:
   a. A copy of the completed Academic Accommodations Request Form (AAR), obtained from the IEO, which details the remaining bullets of this section;
   b. A voluntary disclosure of disability letter requesting reasonable accommodations;
   c. A narrative about the nature of the disability;
   d. A statement regarding the specific type of accommodation(s) being requested (e.g., extended test-taking time);
   e. Documentation confirming the diagnosis of disability from an objective professional qualified in the diagnoses of such condition/disability. This requirement may be waived at the discretion of the Committee on Inclusiveness.

   *All documentation submitted must be no older than five years.*

2. The IEO will review the request and advise the student of the next steps of the process, and provide aid if needed in completing materials for committee review. After all materials have been reviewed and accepted, the IEO submits the packet to the Chair of the Committee on Inclusiveness within three working days, who will then send the information to the Committee within three working days.

3. The Committee on Inclusiveness will determine if any given request for accommodation is reasonable by answering the following questions:
   a. Is the submitted documentation adequate to support the requested accommodation?
   b. Is the individual preparing the diagnosis documentation qualified to make the diagnosis at issue (may be waived at the discretion of the Committee on Inclusiveness)?
   c. Will the requested accommodation result in a fundamental alteration of the course or program that compromises the integrity of the course or program?
   d. Will the requested accommodation cause undue financial or administrative burdens to the University?

The Committee on Inclusiveness should render a decision within ten working days. If no decision can be reached, an additional five-day extension can be granted by the Committee on Inclusiveness, with proper written notice.
to the student via RMUoHP email, written by the IEO. This extension can be granted a maximum of two times, for a total of 20 days. At this time, the student will be informed in writing regarding the decision of the Committee on Inclusiveness. The IEO will coordinate all accommodations with the Registrar’s Office, who will inform the student’s Program Director and faculty, as applicable.

In the event that the Committee on Inclusiveness does not grant the requested accommodation, the student may resubmit a letter with additional supporting documentation to the IEO. The IEO will then submit the new packet to the Committee on Inclusiveness.

**Student Right-to-Know Act**

Because RMUoHP is a graduate school and whereby all students have prior collegiate experience, it is not required to disclose information pertaining to graduation, completion, and transfer rates. However, students or prospective students who wish to discuss this information may do so by contacting the Admissions Department.
Financial Information

Tuition and Fee Invoice

Four weeks prior to the semester start date, a tuition and fee invoice will be emailed to each student. Tuition and fees are payable in U.S. currency and are due ten business days after the semester start date. The tuition due dates for each semester will be listed on the semester invoice, and are also posted on the University’s published Academic Calendar ([https://rm.edu/academic-affairs/academic-calendar/](https://rm.edu/academic-affairs/academic-calendar/)). Program tuition and fee totals are located on the University website ([https://rm.edu/tuition/](https://rm.edu/tuition/)). These rates may change without notice.

Methods of Payment

Tuition and fee payments may be made online through the secure University website with a debit or credit card ([https://rm.edu/ tuition/pay-online/pay-tuition-fees-online/](https://rm.edu/tuition/pay-online/pay-tuition-fees-online/)). Payments may also be made over the phone, by regular mail, or in person, with a check, credit card, money order or direct bank account debit (eCheck). Tuition can also be paid in monthly installments throughout the semester. This is called a Semester Payment Plan. If the Semester Payment Plan option is selected, the total semester tuition balance must be paid off by the last day of the semester. There is a one-time payment plan setup fee of 1.5% (0.015) of the tuition and fee balance.

Example: Tuition and fee total for the semester is $4,000 multiplied by 1.5% (0.015) equals a $60 payment plan setup fee. $4,000 tuition and fee total plus $60 payment plan setup fee equals $4,060. $4,060 divided by four monthly payments equals a $1,015 payment per month.

The Semester Payment Plan option must be requested through the Finance Office, and a signed form is required. The payments will be auto deducted using a credit or debit card or direct bank account debit. If a monthly payment is declined, a $25 fee will apply for each declined payment. A signed payment plan must be received before the tuition due date to avoid a tuition late payment fee.

Late Payment Fees

Tuition payments that are received after the due date, incur a late payment fee of $100.

Financial Drop Date

If a student has not made a tuition payment or signed a semester payment plan by the Financial Drop Date, as published on the Academic Calendar, they will be dropped from their courses for that term, and the tuition charges will be voided. If the student still wanted to be enrolled, they will be required to pay a $100 Re-Enrollment Fee to be added back to the courses for that term. The Registrar’s Office will not process the re-enrollment request until the semester tuition balance is paid in full.

Tuition Refund Policy

A University student has the right to cancel enrollment at the University. They are required to submit a written notice of withdrawal to the University Registrar’s Office by email or by regular mail. The student’s withdrawal date is the date that this written notice arrives at the University. The amount of paid tuition and fees refundable is based on the student’s withdrawal date. A student is eligible to receive a 100% refund of paid tuition until the Financial Drop deadline. If the withdrawal date is after the Financial Drop deadline, a student is not eligible for a refund of paid tuition.

Financial Hold

Students who are on Financial Hold may not participate in their academic program. This means that a student on Financial Hold may not physically attend class on-site, access the Learning Management System, progress
to the next semester, take a qualifying exam, perform recognized doctoral research, nor graduate until the Financial Hold is resolved with the University Finance Office.

**Student Tuition Recovery Fund (STRF) – California Residents Only**

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closures.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To Qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.
However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Financial Aid

The Financial Aid Office was established at RMUoHP to coordinate all financial aid assistance offered to students at the University. The philosophy of financial aid is to provide access and choice to students who, without such assistance, would not be able to attend an institution of higher learning.

Principles of Financial Aid

The staff at the University has adopted the following Principles of Student Financial Aid Administration:

1. The purpose of any financial aid program - institutional, governmental, or private - is to provide monetary assistance to students who can benefit from further education but who cannot do so without such assistance.

2. Each University has an obligation to assist in realizing the national goal of equality of educational opportunity. The University, therefore, works with schools, community groups, and other educational institutions in support of this goal.

3. The University publishes budgets that state total student expenses realistically by including, where applicable, room and board, commuting expenses, personal expenses, and necessary travel.

4. Students are expected to contribute from their own assets and earnings, including appropriate borrowing against future earnings.

5. The amount of aid offered does not exceed the amount needed to meet the difference between the student's total educational expenses and the family's resources.

6. The amount and type of self-help expected from students is related to the circumstances of the individual. In the assignment of funds to those students designated to receive financial aid, the largest amounts of total grant assistance go to students with the least ability to pay.

7. The University reviews its financial assistance awards on a semester-by-semester basis and adjusts them, if necessary, to reflect changes in the financial needs of students and the expenses of attending the institution. The University has an obligation to inform students of the financial aid reapplication policies for enrolled students at the time of the initial offer of financial assistance.

8. Because the amount of financial assistance awarded reflects the economic circumstances of students, the University refrains from any public announcement of the amount of aid offered and encourages students and others to respect the confidentiality of this information.

9. All documents, correspondence, and conversations among aid applicants, their families, and financial aid officers are confidential and entitled to the protection ordinarily arising from a counseling relationship.

Purpose of Financial Aid Office Policy and Procedures

The purpose of the Financial Aid Office section of the University Handbook is to record policies surrounding the delivery of financial aid at The University. If no policy or procedure addresses a given issue, the Financial Aid Office staff is expected to use professional judgment based upon the intent of all financial aid programs and Office practices.
Policy and Procedure Development Responsibility

The Financial Aid Director is responsible for establishing institutional policy development surrounding the delivery of financial assistance. Policy development adheres to federal and State laws and regulations as well as the mission of the University. Financial Aid policy is reported to and approved by the EVPF, when appropriate.

Finance Office Operating Policies

The following operating policies are designed to assure that the Finance Office is effective in carrying out its responsibilities:

1. All students must apply at least annually for financial assistance by submitting appropriate application forms to the US Department of Education (ED).
2. All funds available to the University for financial assistance shall be administered through the Financial Aid Office. When funds or awards for students are received from outside sources by other offices, that office will be required to notify the Financial Aid Office.
3. The Finance Office and Financial Aid Office shall maintain adequate records to ensure proper administration of aid funds. This includes ensuring that aid given is not in excess of need and/or the cost of attendance and that aggregate awards do not exceed total expenditures of funds under each program.
4. Selection of students to receive financial aid will be made without regard to age, sex, race, color, religion, sexual orientation, national origin, disability or marital status.
5. The Financial Aid Office and the Finance Office will be reasonably available via phone, email or in person during normal University business hours.

Financial Aid Reference Documents

The documents which are used to determine eligibility for Financial Aid include current regulations published in the Federal Register, Department of Education Guides (such as the Federal Student Financial Aid Handbook and Audit Guide), Dear Colleague Letters, financial aid legislation, and other laws or regulations that impact student aid. This information is available at www.ifap.ed.gov.

Title IV Financial Aid Programs and Requirements

The University participates in the Title IV Student Financial Aid Programs as an eligible Proprietary Institution of Higher Education. Eligibility documents are maintained in the Financial Aid Office. The Financial Aid Director is responsible for tracking the expiration of the PPA and completing the Recertification process.

Program Eligibility

Almost all programs at the University meet the eligibility requirements for Title IV funding. See the Handbook for additional information the University’s educational programs.

Administrative Capability

The institution administers the Title IV programs in accordance with all applicable statutory and regulatory provisions. To maintain participation in Title IV programs, the University administers the programs adequately to ensure timely, compliant, and consistent administration of aid.

Administration

The Financial Aid Director administers the Federal Student Aid (FSA) programs and coordinates the aid received from these programs. The Financial Aid Office is aware of other aid available and received to help properly package and effectively use the various types of student assistance.
To manage the aid programs effectively, the Financial Aid Office is supported by an adequate number of financial aid professionals, both at the institution and from outside sources as needed.

Responsibilities of Institutional Offices

To ensure that funds are properly managed, the administration of aid is delegated to various offices. The staff of the Financial Aid Office is responsible for verifying eligibility and approving payment. The Finance Office is notified of the approved payments and is responsible for applying eligible funds timely to the Student's account. The Finance Office also maintains any required reports that show funds were properly administered.

Separation of Duties

The University ensures that its administrative procedures for Federal Student Aid (FSA) programs include an adequate system of internal checks and balances. This includes the separation of functions of authorizing payment and disbursing or delivering funds so that no one person or office exercises both functions for any student receiving FSA funds.

The University has established internal controls to ensure that the authorizing and the delivering of funds are handled by distinct users and areas. The authorizing of funds is handled by the Financial Aid Office and the disbursing of funds is handled by the Finance Office.

Security measures are also in place to prevent systems access that would allow both functions to be performed by the same user. Users with access to authorize funds have view only access to the payment section and vice versa.

Records

The University maintains student records as required under the General Provisions and individual Title IV program regulations.

Required Electronic Processes

The University maintains optimal system configuration requirements as published by the Department of Education (ED). The University also utilizes the applications available to help administer FSA programs such as the Student Aid Internet Gateway (SAIG), National Student Loan Data System (NSLDS), and the Information for Financial Aid Professionals (IFAP).

Information Discrepancies

The University has developed and applied an adequate system to identify and resolve discrepancies in the information received from different sources with respect to a student's application for Title IV aid. The University resolves discrepancies for all students, not just those selected for verification. Resolution includes determining what information is correct, and documenting findings in the student's file.

The University refers for investigation to US Department of Education's Office of Inspector General (OIG) any credible information indicating that a Title IV aid applicant, school employee, or third-party servicer may have engaged in fraud or other criminal misconduct in connection with the Title IV programs.

The data that the University uses to identify and resolve discrepancies include:

- ISIR
- Documents submitted by the student
- Information contained in the school system
- Information used to establish eligibility
- Information provided by outside resources
- Information provided by other departments within the University

2019-2020 University Handbook
The University resolves conflicting information unless
- at the time of disbursement there was no conflicting information and
- all aid for period of enrollment has been disbursed, or
- the student is no longer enrolled at the University (and is not intending to re-enroll)

Conflicting information is resolved prior to the awarding and disbursing of aid occurs.

**Reviews and Proceedings**

ED will periodically conduct program reviews in addition to reviewing audits. The institution will arrange an annual compliance audit. State and accrediting agencies may also conduct periodic reviews of the Institution’s data.

The University provides the reviewing officials access to any records or documents necessary to complete the review. Throughout any review process, the University will cooperate fully with the independent auditor, the Department of Education, the Inspector General, and/or the appropriate State or accrediting agency.

**Cohort Default Rates**

To maintain the cohort default rate for Federal Stafford Loans made to students below the federal threshold, the University has adopted the Default Management plan provided by the Department of Education.

**Financial Responsibility, Reporting, and Reconciliation**

**Annual Audited Financial Statements**

The University annually submits audited financial statements to continue participation in the Federal Student Aid (FSA) programs. This submission includes the compliance audit results. The annual submission represents information on how the University meets the following requirements:
- Composite Score: maintains composite score of at least 1.5.
- Refund Reserve Standards: has a sufficient cash reserve to make the required refunds, including the return of Title IV funds.
- Returning Funds in a Timely Manner: meets all financial obligations, including making required refunds, including the return of Title IV funds and making repayments to cover Title IV program debts and liabilities.
- Current in Debt Payments: stays current in debt payments.

**Reporting and Reconciliation**

To ensure adequate checks and balance are in place for program administration, the University reconciles FSA program funds on a regular basis. Conducting frequent reconciliations allows for the proper management of FSA funds. This also ensures that the proper annual allocations are authorized accordingly based on utilized amounts.

**National Student Loan Data System (NSLDS) Reporting Enrollment Status**

NSLDS sends roster files through the Student Aid Internet Gateway (SAIG) mailbox. The University certifies the information and returns the roster within 30 days after receiving it. If the roster being submitted to NSLDS does not pass the NSLDS Enrollment Reporting edits, the discrepancy is resolved within 10 days of receiving the notification. Changes to a student's enrollment status (graduated or withdrawn) are reported through the roster process.

Within 60 days after the exit counseling session, The University provides the Direct Loan Servicing Center any updated information about: the borrower's name; address; references; future permanent address; Social Security Number; the identity and address of the borrower's expected employer, the address of the borrower's next of kin, and the borrower's driver's license number and state of issuance.
General Title IV Student Eligibility Requirements

To be eligible for Federal Student Aid (FSA) funds, a student must meet the criteria listed below. The University ensures that eligibility requirements are met before the awarding of aid occurs. A student must adhere to the following criteria:

- Be enrolled as a regular student in an eligible program.
- Not be enrolled simultaneously in elementary or secondary school.
- Have a high school diploma or its recognized equivalent (e.g., a GED).
- Have a valid Social Security Number with the Social Security Administration.
- Be a U.S. citizen or eligible noncitizen.
- Be registered with Selective Service, if required.
- Sign a Statement of Educational Purpose, which certifies that he or she will use federal student financial aid only to pay educational costs.
- Not be in default on a Title IV loan or, if in default, have made satisfactory repayment arrangements with the loan holder.
- Have not obtained loan amounts that exceed annual or aggregate loan limits made under any Title IV loan program.
- Not be liable for an overpayment of a Title IV grant or Federal Perkins Loan or, if liable, have made satisfactory repayment arrangements with the holder of the debt.
- Be making satisfactory academic progress (SAP).
- Not have property which is subject to a judgment lien for a debt owed to the US or, if subject to a judgment lien, have made satisfactory repayment arrangements with the debt holder.
- Not have been convicted of an offense involving the possession or sale of illegal drugs that occurred while enrolled and receiving Title IV aid.
- Have completed repayment of funds to either ED or the holder of a loan, as applicable, if the student has been convicted of, or pled nolo contendere or guilty to, a crime involving fraud in obtaining Title IV aid.

Students must complete the Free Application for Federal Student Aid (FAFSA) and have the results sent to the University. Once the results are received by the University, they are reviewed to ensure that the student meets all eligibility criteria. If a student is deemed ineligible due to one of the above issues, the Financial Aid Office staff will inform the student of the issue so that the student can work towards resolution.

If the student meets the eligibility criteria for federal financial aid and all the required documents have been received, he/she is then awarded federal financial aid funds.

Transfer coursework is not used to calculate the GPA or SAP but is used to establish grade level for loan eligibility. Credit evaluations from unofficial transcripts are accepted to determine loan eligibility.

Federal Aid Programs Offered by Rocky Mountain University of Health Professions

Students attending all programs at the University who qualify are eligible to receive funds under the Federal Direct Loan Program (FDLP). Students accepted for enrollment at the University may apply for unsubsidized and Graduate PLUS loans under the FDLP.

William D. Ford Federal Direct Stafford Loan Program and Direct PLUS Loans

The William D. Ford Federal Direct Stafford Loan Program (DL) provides low-interest, deferred-payment loans to undergraduate and graduate students who demonstrate financial need. These loans assist students with educational expenses. Two types of loans are offered: unsubsidized and Grad PLUS. The total of all aid may not exceed the Cost of Attendance (COA) for the loan period.

Students apply for Federal Direct Loans by completing the Free Application for Federal Student Aid (FAFSA), the University Financial Aid Application, and the Master Promissory Note (MPN). All first-time University borrowers
must also complete entrance counseling prior to receiving loan funds. All students who have had DL loans disbursed while attending the University must complete exit counseling prior to graduation. Those borrowers who terminate attendance by means other than graduation. All borrowers may also complete the required entrance and exit counseling online.

All programs at the University are at least an academic year in length. If a student is enrolled in a program with a final period of study that is shorter than an academic year, the loan award will be prorated accordingly. Annual and Aggregate loan limits are as follows:

<table>
<thead>
<tr>
<th>Annual Loan Limits** Unsub Loans</th>
<th>Total (Unsubsidized)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Graduate and Professional (all years)</td>
<td>$20,500</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Aggregate Limits for *Sub/Unsub Loans</th>
<th>Subsidized</th>
<th>Total (Subsidized and Unsubsidized)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Graduate and Professional (all years)</td>
<td>$65,500</td>
<td>$138,500</td>
</tr>
</tbody>
</table>

*Subsidized funds were available to graduate students up until June 30, 2012. As of July 1, 2012, only unsubsidized funds are available.

**Please note that “Annual” in financial aid terms means “every two semesters.”

Non-federal Educational Loans

If an institution or any institution-affiliated organization provides information regarding a private education loan from a lender to a prospective borrower, the institution or institution-affiliated organization also must provide the following disclosures regardless of whether a preferred-lender arrangement exists (this information is available in Finance Office):

- Private Education Loan Application Self-Certification Form
- Information required under section128(e)(1) of the Truth in Lending Act (TILA) for private education loans
- A notice that:
  - the borrower may qualify for loans or other assistance under the Title IV programs.
  - the terms and conditions of loans under the Title IV programs may be more favorable than those of private education loans.

Additional Student Consumer Information Requirements

**Entrance Counseling**

The University ensures loan entrance counseling is conducted online before a borrower takes out a loan. Students are able to complete entrance counseling at [FSA Entrance Counseling](#).

The interview includes the following:

- an explanation of the use of a master promissory note (MPN)
- the importance of repayment obligation
- a description of the consequences of default
- sample repayment schedules
- information in reference to a borrower’s rights and responsibilities
- other terms and conditions

Students applying for financial aid must attend an online Entrance Counseling Session before loans may be disbursed. Once students complete the Entrance Counseling Session, the Financial Aid Office will process for approval.
Exit counseling
The University ensures loan exit counseling is conducted online prior to a student’s graduation or withdrawal. The students will be notified to complete the exit counseling session provided by Department of Education’s National Student Loan Database System https://studentloans.gov/myDirectLoan/counselingInstructions.action?counselingType=exit.

Once the student completes the exit counseling the financial aid office will then finalize the student’s Title IV exit process. The interview includes the following:

- an explanation of the use of a master promissory note (MPN)
- the importance of repayment obligation
- a description of the consequences of default
- sample repayment schedules
- information in reference to a borrower’s rights and responsibilities
- other terms and conditions

Application and Forms
There are a number of forms and documents required to apply for Title IV student assistance. The primary application is the FAFSA. Students apply for a Personal Identification Number (PIN) and then complete the FAFSA online at http://www.fafsa.ed.gov. The PIN will be used to sign the Direct Loan Master Promissory Note, and also the FAFSA. A new FAFSA is required for each Award Year.

The ISIR (the output document generated after completion of the FAFSA) must be received by the University 60 days in advance of the first term of each Award Year for aid to be awarded prior to the start of the term. ISIRs received after that date will be processed but the aid may not be awarded prior to the start of the term. Aid may also be delayed due to conflicting documentation or conflicts in the information provided.

Verification, ED Database Matches or Conflicting Information
If selected for a process called verification, if flagged for additional review based on ED Database matches or if otherwise requested by the Finance Office, the student will be required to provide additional documentation to validate the data provided on the FAFSA or on other University forms. The additional document may include but is not limited to the following:

- base year or current year tax returns (and schedules)
- Verification Worksheet
- Social Security Card or confirmation from SSA
- proof of citizenship or eligible non-citizenship
- other documents based on ED Database Match or other conflicting data

The University utilizes the Federal Student Financial Aid Handbook, Application and Verification Guide section for what documentation and signatures are required to complete the verification process. The staff may request additional documentation if they believe a conflict exists and additional documentation would clarify. Verification will not be completed if the student meets one of the exemptions listed in the Handbook.

The University notifies students that they have been selected for Verification, by ED or the school, when an ISIR is received for an active or future student that has been flagged for verification or when conflicting documentation triggers the school to select the student for this process. The notification to the student will be in writing (may be sent via email) and will include an explanation of the required documentation, the student responsibilities for getting the information to the school and how the student will be notified of award changes due to the verification process. Financial Aid Office staff will process corrections to the ISIR on behalf of the student, if required, based on the documentation received.

The University encourages students to provide all required documentation within 10 days to prevent a delay in awarding aid. Students who fail to provide the required documentation will assumed to be no longer interested
in receiving Title IV aid and other arrangements must be made to meet tuition obligations. Students who do not provide sufficient documentation to complete the verification process while enrolled may be eligible for a late disbursement if a valid ISIR was received while the student was enrolled.

**Review of Subsequent ISIR Transactions**

All ISIRs received for current and future students will be evaluated. ISIRs are received due to the processing of a FAFSA for new students and for enrolled students for each Award Year. They are also received after the initial application due to corrections made by the student, school staff or ED’s servicer. A review of ISIRs received will be done to ensure all data on which aid is being awarded is accurate. A determination must be made regarding whether or not the new ISIR is the valid/accurate ISIR that should be used for awarding purposes. The University may request additional information and/or withhold future Title IV aid based on the information on a subsequent ISIR.

**Professional Judgment**

The Higher Education Act of 1965 (HEA) provides the authority for the Financial Aid Director to exercise discretion in a number of areas when a student has special or unusual circumstances. This authority is known as Professional Judgment (PJ). It allows the Financial Aid Director to treat a student individually when conditions exist that differentiate that student from a class of students. PJ decisions must be made on a case-by-case basis as the result of examining an individual student’s unique circumstances. Please notify the Financial Aid Office if your marital or financial situation has changed since the prior year.

**Disbursements**

A student can receive the first disbursement of federal financial aid funds at the start of his or her program or academic year. The student becomes eligible to receive a disbursement of federal financial aid funds for the second term when he or she successfully completes the prior term and begins the subsequent term.

Title IV financial aid will be delivered to the school by EFT, into the student’s account at the University. The Title IV Authorization Form will be retained on account or paid to the student based on the agreement on the student’s pay credit authorization agreement between the student and the University. Funds are disbursed generally once per term for students in a participating program who are meeting satisfactory progress and who have submitted all required documents for that Award Year.

**Return of Title IV Funds**

Title IV funds are awarded to a student under the assumption that the student will attend the University during the entire period for which the assistance was awarded. When a student ceases to be enrolled at the University prior to the end of a term, the University performs a Return to Title IV (R2T4) calculation to determine the amount of Title IV aid for which the student remains eligible.

The requirements for Title IV program funds when a student withdraws are separate from any refund policy that the school may have. Therefore, the student may still owe funds to the school to cover unpaid institutional charges. The school may also charge the student for any Title IV program funds that the school was required to return. A copy of the University’s refund policy is contained in the University Handbook.

As mandated by the US Department of Education (ED), the R2T4 calculation determines what portion of Title IV funds, disbursed or that could have been disbursed, can be used to pay institutional and non-institutional charges. For students subject to a R2T4 calculation, the calculation accounts for the initial charges that are assessed for the entire payment period. Initial charges may only be adjusted by those changes the University makes prior to the student’s withdrawal. The amount of assistance that the student has earned is determined on a pro rata basis. For example, if the student was scheduled to complete 30% of the payment period at the time he or she withdrew, he or she earns 30% of the assistance he or she was originally scheduled to receive. Once the student has completed more than 60% of the payment period, he or she earns all the assistance that he or she was scheduled to receive for that period.
If the student does not receive all of the funds that he or she earned, the student may be due a post-withdrawal loan disbursement. The University must get the student’s permission before it can disburse the loan funds. The student may choose to decline some or all of the loan funds so that the student does not incur additional debt. The University may automatically use all or a portion of the post-withdrawal disbursement (including loan funds, if he or she accepts them) for tuition, fees and books/supplies. For all other University charges, the University needs the student’s permission to use the post-withdrawal disbursement. If the student does not give permission (which some universities ask for when the student enrolls), the student will be offered the funds. However, it may be in the student’s best interest to allow the University to keep the funds to reduce the student’s debt at the University.

The following Title IV aid programs in which the University participates are covered in the R2T4 calculation and will hereafter be referred to as the Title IV aid programs:

- Direct Stafford loans
- Grad PLUS loans

If the calculation results in the return of funds, funds will be returned to the federal loan programs in the order of: unsubsidized Stafford DL, and then Grad PLUS DL.

A University student has the right to cancel his or her enrollment at the University and apply for a refund of paid tuition and program fees by submitting a written notice of withdrawal to the University Registrar’s Office by email or by regular mail at the University’s regular mailing address. The Student’s Withdrawal Date is the date that this written notice arrives at the University. The amount of paid tuition and program fees refundable is based on the student’s Withdrawal Date. A student is eligible to receive a 100% refund up until the Add/Drop deadline. After the Add/Drop deadline, a student is ineligible for a refund of tuition.

Authorized refunds are scheduled for payment within 30 days of the Student’s Withdrawal Date.

The University determines when a student ceases to attend the institution. Determination occurs when

- a student notifies the University of his or her intent to withdraw, or
- when the institution dismisses the student.

The withdrawal process begins on the date of determination. From the date of determination, the University makes no further disbursements of Title IV aid and holds any credit balances due the student until the R2T4 calculation is completed. The University returns funds within 45 days of the date of determination.

Veteran’s Affairs Benefits

Veteran’s Affairs benefits are offered for most of the University’s programs. To get things started, contact the Veteran’s Benefits Office at 801.375.8354.

Audits

A school that participates in any of the Title IV programs must undergo an annual compliance audit and an audit of the institution’s financial statement by an independent auditor, who may be a certified public accountant or a government auditor. Although a school’s compliance and financial statement audits may be performed by different independent auditors, both audits must be submitted together to the US Department of Education. The University will submit both audits in a timely manner.
